## Ringkasan Eksekutif

Salah satu indikator keterbukaan informasi di sebuah lembaga publik dapat dilihat dari ketersediaan informasi yang dimuat di dalam *website*. Begitupun dengan lembaga peradilan, ketersediaan informasi publik bisa dilihat dari informasi yang dimuat di dalam *website*. Dari penilaian yang dilakukan atas seluruh *website* lembaga peradilan, sebagian lembaga peradilan telah memiliki *website* dan memuat informasi-informasi bagi publik. Namun, masih ada juga yang belum menyediakan informasi publik secara lengkap dan optimal.

Penilaian ini merujuk kepada ketentuan yang diatur di dalam UU No. 14 Tahun 2008 tentang Keterbukaan Informasi Publik dan Surat Keputusan Ketua Mahkamah Agung Nomor: 144/KMA/SK/VIII/2007 tanggal 28 Agustus 2007 tentang Keterbukaan Informasi di Pengadilan. Dari hasil penilaian tersebut, siapa yang menjadi pengadilan terbaik dengan nilai keterbukaan informasi yang besar bisa ditemukan.

Pengadilan terbaik dari seluruh pengadilan terbaik adalah sebagai berikut:

1. Pengadilan Agama Bantul, Provinsi D.I. Yogyakarta (www.pa-bantul.net);
2. Pengadilan Agama Yogyakarta, Provinsi D.I. Yogyakarta (www.pa-yogyakarta.net);
3. Pengadilan Agama Sleman, Provinsi D.I. Yogyakarta (www.pa-slemankab.go.id);
4. Pengadilan Tinggi Agama Yogyakarta,

## Executive Summary

One of the indicators of public access to information in state agencies can be seen from the availability of information uploaded in websites. The same applies to courts; public access to information can be seen from the information uploaded in websites. From the assessment conducted to every website of the court, several courts own websites that contains information for public. However, there are several websites that have yet to provide complete public information.

This assessment is referring to the provision provided in Law Nr. 14 of 2008 regarding Public Information Disclosure and Chief Justice Decree Nr: 144/KMA/SK/VIII/2007 dated 28 August 2007 regarding Public Access to Information in the courts. From the assessment, who became the best court with the highest score on public access to information can be determined.

The best of the best court are as follows:

1. Bantul Religious Court, D.I. Yogyakarta Province (www.pa-bantul.net);
2. Yogyakarta Religious Court, D.I. Yogyakarta Province (www.pa-yogyakarta.net);
3. Sleman Religious Court, D.I. Yogyakarta Province (www.pa-slemankab.go.id);
4. Yogyakarta Religious Appeal Court,

Provinsi D.I.Yogyakarta (www.pta-yogyakarta.go.id); dan
5. Pengadilan Tinggi Agama Surabaya, Provinsi JawaTimur (www.pta-surabaya.go.id).

Kemudian, pengadilan tingkat banding yang terbaik adalah sebagai berikut:
1. Peradilan Umum: Pengadilan Tinggi Banjarmasin, Provinsi Kalimantan Selatan (www.pt-banjarmasin.go.id);
2. Peradilan Agama: Pengadilan Tinggi Agama Yogyakarta, Provinsi D.I.Yogyakarta (www.pta-yogyakarta.go.id);
3. Peradilan Tata Usaha Negara: Pengadilan Tinggi Tata Usaha Negara Medan, Provinsi Sumatera Utara (www.ptun-medan.go.id); dan
4. Peradilan Militer: Pengadilan Militer Utama (www.dilmiltama.go.id).

Sementara itu, pengadilan tingkat pertama yang terbaik adalah sebagai berikut:
1. Peradilan Umum: Pengadilan Negeri Sumedang, Provinsi Jawa Barat (www.pn-sumedang.go.id);
2. Peradilan Agama: Pengadilan Agama Bantul, Provinsi D.I. Yogyakarta (www.pa-bantul.net);
3. Peradilan Tata Usaha Negara: Pengadilan Tata Usaha Negara Palembang, Provinsi Sumatera Selatan (www.ptun-palembang.go.id); dan
4. Peradilan Militer: Pengadilan Militer Surabaya, Provinsi Jawa Timur (www.dilmil-surabaya.go.id).

D.I. Yogyakarta Province (www.pta-yogyakarta.go.id); and
5. Surabaya Religious Appeal Court, East Java Province (www.pta-surabaya.go.id).

The best appeal courts are as follows:
1. General Court: Banjarmasin Appeal Court, South Kalimantan Province (www.pt-banjarmasin.go.id);
2. Religious Court: Yogyakarta Religious Appeal Court, D.I. Yogyakarta Province (www.pta-yogyakarta.go.id);
3. State Administrative Court: Medan State Administrative Appeal Court, North Sumatera Province (www.ptun-medan.go.id); and
4. Military Court: the Military Supreme Court (www.dilmiltama.go.id).

The best courts of first instance are as follows:
1. General Court: Sumedang District Court, West Java Province (www.pn-sumedang.go.id);
2. Religious Court: Bantul Religious Court, D.I. Yogyakarta Province (www.pa-bantul.net);
3. State Administrative Court: Palembang State Administrative Court, South Sumatera Province (www.ptun-palembang.go.id); and
4. Military Court: Surabaya Military Court, East Java Province (www.dilmil-surabaya.go.id).

## Kata Pengantar

Keterbukaan informasi (khususnya mengenai pengadilan) merupakan fondasi dari sebuah negara hukum yang demokratis. Prinsip mengenai keterbukaan informasi diamanatkan oleh UUD 1945 dalam Pasal 28F. Hal ini diperkuat dengan diberlakukannya UU KIP dan SK 144/2007 sebagaimana diamandemen dengan SK 1-144/2011 (keduanya disebut SK 144).

Sejak diberlakukannya UU KIP dan SK 144, diseminasi informasi oleh lembaga publik, khususnya lembaga peradilan, menjadi suatu keharusan. Berdasarkan UU KIP dan SK 144, semua badan publik wajib menyediakan informasi publik yang dapat dengan mudah diakses oleh masyarakat. Keterbukaan informasi atau transparansi lembaga publik sangat krusial dalam menentukan tingkat akuntabilitas dari lembaga negara.

Pada beberapa tahun terakhir, lembaga-lembaga peradilan terlihat terus berusaha untuk meningkatkan kualitas penyampaian informasi dengan diantaranya meluncurkan *website-website* pengadilan. Baik pengadilan umum, pengadilan agama, pengadilan tata usaha negara, maupun pengadilan militer terlihat terus berusaha untuk mengembangkan kualitas *website*-nya untuk memenuhi kebutuhan informasi masyarakat.

## Foreword

Public access to Information (particularly with regard to the courts) is a cornerstone of the democratic state based on the rule of law. The principle of public access to information is mandated by the UUD 1945 in Article 28 F. The principle is further implemented by UU KIP and SK 144/2007 as amended by SK 1-144/2011 (both referred to hereafter as SK 144).

Since the enactment of UU KIP and SK 144, the dissemination of information by state agencies, including the courts, has become mandatory. Based on UU KIP and SK 144, every state agency shall provide easily-accessible public information, as specified therein. Information disclosure or transparency of state agency is crucial to ensure accountability of state institutions to society.

In the past few years, courts have been improving access to and dissemination of information by developing court websites. The general courts, the religious courts, the state administrative courts, and the military courts have been putting a lot of effort into improving the quality of their websites to meet demands for greater information access from the general public.

Buku ini disusun untuk merekam jejak perjalanan pengembangan *website-website* pengadilan tersebut serta untuk mendorong seluruh pengadilan untuk lebih meningkatkan kualitas penyajian informasi kepada masyarakat. Diharapkan dengan diterbitkannya buku ini, setiap pengadilan dapat mengukur sejauh mana mereka telah memenuhi persyaratan yang ditetapkan oleh UU KIP dan SK 144, sehingga kualitas *website* dapat terus ditingkatkan di masa-masa yang akan datang. Buku ini juga diharapkan dapat memacu baik lembaga peradilan maupun masyarakat untuk terus mengusung perjuangan dalam menciptakan lembaga peradilan yang lebih transparan dan akuntabel.

This book is compiled to track the step-by-step development of court websites and also to encourage all courts to improve the quality of website information. It is hoped that with the publication of this book, every court can get a better picture of their compliance with the requirements of UU KIP and SK 144, which will also help to improve the quality of their websites going forward. It also is hoped that this book encourages both courts and the public to work together in a joint effort to create more transparent and accountable judiciary.

Buku ini terdiri dari 5 bab. Bab 1 antara lain menjabarkan mengenai latar belakang, maksud, tujuan, serta metodologi yang digunakan dalam proses penilaian. Bab 2 menjabarkan mengenai dasar dari penilaian serta kriteria-kriteria yang digunakan dalam penilaian dan sistem skoring. Bab 3 mengangkat hal-hal menarik yang terungkap selama proses penilaian dan mengenai cakupan informasi *website* serta mengenai substansi dari *website-website* yang dinilai. Bab 4 membahas mengenai statistik konten informasi pengadilan. Bab 5 menyajikan daftar pengadilan dengan peringkat-peringkat terbaik sesuai dengan tingkat

This book consists of 5 chapters. Chapter 1 includes a description of the background, purpose, objective and methodology used in the assessment. Chapter 2 describes the basis of assessment, notably indicators which are used as well as the scoring system. Chapter 3 highlights some important points which came out of this assessment. It also considers the information 'bandwidth' of the websites and their contents. Chapter 4 gives website statistics. Chapter 5 provides lists of the best performing courts distinguished by level and jurisdiction. The last part of chapter 5 presents the best-of-the-best list, which consist of the

dan jenis pengadilan. Di akhir bab 5 ditampilkan pula daftar *best of the best*, yang terdiri dari pengadilan dengan peringkat terbaik (tanpa membedakan jenis dan tingkat peradilan). Di bagian akhir buku, disertakan lampiran-lampiran yang berisi daftar tabel penilaian dari seluruh pengadilan dengan detail skor untuk setiap kriteria penilaian.

courts with the highest score nationwide (without distinguishing according to level or jurisdiction). The last section of the book includes attachments which give detailed assessments of all courts with the detailed scores for each of the indicators of the assessment.

Buku ini disusun dan diterbitkan oleh PT Tatanusa dengan dukungan penuh dari *the National Legal Reform Program (NLRP)*. Tim penyusun terdiri dari Muhammad Faiz Aziz, Mega Hapsari Ramadhani, Muhamad Asmuni, Adhli Akbar, Henni Handayani, dan Putri Almira Sovita.

This book is compiled and published by PT Tatanusa with full support from the National Legal Reform Program (NLRP). The team of compilers consists of Muhammad Faiz Aziz, Mega Hapsari Ramadhani, Muhamad Asmuni, Adhli Akbar, Henni Handayani and Putri Almira Sovita.

Buku ini kami terbitkan dalam versi dua bahasa (*bilingual*) untuk memperluas cakupan pembaca, tidak hanya pembaca dalam negeri namun juga pembaca asing.

This book is published in bilingual version to make it accessible to a broader public, both in Indonesia and abroad.

Kami berterima kasih kepada semua pihak yang telah mendukung dan membantu kami dalam proses penyusunan buku ini. Ucapan terima kasih khususnya kami sampaikan kepada Bapak Wahyu Widiana selaku Direktur Jenderal Badilag MA yang telah memberikan dukungan dan *feedback* yang luar biasa terhadap kegiatan *website assessment* selama ini.

We thank all parties who have supported and helped us on compiling this book. Special thanks go to Mr. Wahyu Widiana, Director General of the Religious Courts Affairs of MA, for his support and useful feedback to the website assessment process over the past year.

# Bab 1

# Pendahuluan

## A. Latar Belakang

Keterbukaan informasi publik bukanlah lagi "barang langka" di negeri ini. Sejak diundangkannya UU KIP pada 2008 lalu dan secara khusus sejak diterbitkannya SK 144/2007[1] tentang Keterbukaan Informasi di Pengadilan, keterbukaan informasi publik menjadi sebuah keniscayaan.

Keterbukaan informasi (khususnya informasi mengenai peradilan) merupakan fondasi dari negara hukum dan demokrasi. Prinsip keterbukaan informasi ini diamanatkan oleh UUD 1945 sebagaimana tercantum di di dalam Pasal 28 F. Pasal tersebut antara lain menyebutkan bahwa setiap orang berhak untuk mencari, memperoleh, memiliki, menyimpan, serta mengolah informasi dengan menggunakan segala jenis saluran yang tersedia.

1 Pada saat buku ini disusun, SK 144/2007 telah diubah dengan SK 1-144/2011 tentang Pedoman Layanan Informasi di Pengadilan.

# Chapter 1

# Introduction

## A. Background

Public access to information is not a "rare item" in this country. Since the enactment of UU KIP in 2008 and in particular the enactment of SK 144/2007[1] concerning Public Access to Information in the Courts, public access to information is a mandatory feature.

Public access to information (particularly information on the courts) is the foundation of the rule of law and democracy. The principle of disclosure is mandated by the UUD 1945 in Article 28 F. The article says that every person has the right to seek, obtain, possess, store and process information by using all available channels or media.

1 During the preparation of this book, SK 144/2007 was amended by SK 1-144/2011 regarding Court Information Services Guideline.

UU KIP dan SK 144/2007 menjadi aturan implementasi dari Pasal 28 F UUD 1945 di atas. Kedua aturan tersebut menjadi dasar pelaksanaan keterbukaan berbagai informasi publik di sektor peradilan. Masyarakat saat ini mulai bisa mengakses berbagai informasi publik di pengadilan, baik dengan datang langsung atau mengajukan surat, maupun mengunduhnya lewat *website*. Media yang disebut terakhir ini menjadi pilihan paling efisien dalam mencari dan mendapatkan informasi publik yang dibutuhkan dari pengadilan.

Namun sayangnya, hingga saat ini belum satupun informasi yang menggambarkan sejauh mana lembaga peradilan telah mengimplementasikan kedua aturan di atas secara menyeluruh. Padahal, informasi itu sangat penting untuk mengetahui konsistensi lembaga peradilan dalam menjalankan aturan.

Sehubungan dengan itu, beberapa waktu lalu National Legal Reform Program (NLRP), sebuah program pembaruan hukum dan peradilan yang dibiayai oleh pemerintah Belanda, melakukan sebuah penilaian (*assessment*) mengenai keterbukaan informasi publik di pengadilan. Penilaian hanya dilakukan secara terbatas pada salah satu media informasi, yaitu *website* pengadilan. Pemilihan *website* sebagai obyek penilaian didasarkan pada

UU KIP and SK 144/2007 are implementing regulations of Article 28 F of the UUD 1945. These regulations constitute the basis for public access to various types of information for the courts. Currently, members of society can access various types of information in the courts, either by visiting in person or in writing, or by downloading such information from website. The last form is often referred to as the most efficient instrument for the public to search for and access information on the courts.

Unfortunately, there is no information to date on the efforts the courts have put into implementing both aforementioned regulations. Such information is very important to get a sense on how consistent the courts have been in implementing the law.

In this context, the NLRP, which is a legal reform and judicial reform funded by the Dutch Government, conducted an assessment on the public access to information in the courts. The assessment was limited to websites because these are easily accessible, and there only was a small team that could do the assessment.

tingkat aksesibilitasnya guna menjawab keterbatasan sumberdaya dalam melakukan penilaian.

Berdasarkan UU KIP dan SK 144/2007, *website* merupakan salah satu media yang dapat digunakan oleh lembaga publik khususnya pengadilan untuk menyediakan informasi publik mutakhir. Seiring dengan perkembangan teknologi, siapapun akan sepakat bahwa cara penyampaian ini adalah cara yang paling efisien baik bagi penyedia informasi maupun bagi pihak-pihak yang haus akan informasi publik.

NLRP melakukan penilaian secara berkesinambungan sejak 2009 hingga 2010. Hasil penilaian tersebut dituangkan dalam terbitan *Quarterly Fact Sheet* (QFS). Pada edisi *pertama* QFS, lembaga peradilan yang dinilai adalah pengadilan tinggi (PT).[2] Pada edisi *kedua*, giliran pengadilan negeri (PN) yang menjadi obyek penilaian.[3] Menyusul kemudian di edisi *ketiga* dan *keempat*, pengadilan agama (PA)[4] dan pengadilan tinggi agama (PTA)[5].

According to UU KIP and SK 144/2007, websites are a media outlet that state agencies such as courts can use to grant the public access to the latest information. As technology progressed, most people will agree that this media outlet is the most efficient vehicle to provide information, both for the parties supplying the information as well as for information consumers.

The NLRP conducted continuous assessments of court websites throughout 2009 and 2010. These assessments were published in the Quarterly Fact Sheets (QFS). The first edition of the QFS assessed the Appeal Courts (PT).[2] The second edition looked at the District Courts (PN).[3] In the third and fourth editions, the courts assessed were the Religious Courts (PA)[4] and the Religious Appeal Courts (PTA).[5]

2 *Important Internet Links,* Quarterly Fact Sheet (1st Edition, October 2009), hal. 18-20.
3 *District Courts Internet Links*: *An Assessment*, Quarterly Fact Sheet (2nd Edition, February 2010), hal. 23-31.
4 *The Religious Court Website Assessment*, Quarterly Fact Sheet (3rd Edition, August 2010), hal. 30-36.
5 *The Religious Appeal Court Website Assessment*, Quarterly Fact Sheet (4th Edition, December 2010), hal. 20-23.

2 *Important Internet Links*, Quarterly Fact Sheet (1st Edition, October 2009), p. 18-20.
3 *District Courts Internet Links: An Assessment,* Quarterly Fact Sheet (2nd Edition, February 2010), p. 23-31.
4 *The Religious Courts Website Assessment,* Quarterly Fact Sheet (3rd Edition, August 2010), p. 30-36.
5 *The Religious Appeal Courts Website Assessment,* Quarterly Fact Sheet (4th Edition, December 2010), p. 20-23.

Ukuran yang digunakan NLRP dalam penilaian tersebut sebenarnya cukup sederhana, yaitu UU KIP dan SK 144/2007 tanpa melakukan *break-down* atau perincian yang sangat detail. Akan tetapi, NLRP menambah kriteria penilaian yang tidak ditentukan di dalam UU KIP dan SK 144/2007 misalnya penilaian atas ketersediaan informasi publik dalam bahasa asing.

The indicators the NLRP developed for these assessments are simple, i.e. based on the UU KIP and SK 144/2007 without a detailed break-down. The NLRP did add one or two indicators not stipulated by the UU KIP and SK 144/2007, such as whether information is made available in a foreign language.

Penilaian yang dilakukan NLRP ternyata memperoleh respon positif dari lembaga peradilan khususnya peradilan agama. Lembaga peradilan agama yang diwakili Direktur Jenderal Badilag mengapresiasi hasil penilaian NLRP. Bahkan, secara terus terang, hasil penilaian ini diakui telah memotivasi pengadilan agama dan pengadilan tinggi agama untuk memperbaiki *website* masing-masing agar informasi publik yang disajikan menjadi lebih lengkap.[6] Respon positif ini tentu membesarkan hati NLRP, lantaran hasil kerjanya diapresiasi secara positif. Bagi lembaga peradilan pun, penilaian pihak luar terhadap *website* mereka juga membesarkan hati. Karena upayanya

The assessment conducted by the NLRP received a positive response from the judiciary, especially the religious courts. The Director General for Religious Courts Affairs expressed his support for the assessment and acknowledged that the assessment motivated the religious courts and religious appeal courts to improve their websites and increase the information content that the public can access.[6] This positive response was encouraging for the NLRP. The same can be said for the courts; an assessment of their websites conducted by an external party encouraged them as well, since this in fact constituted an objective assessment of the extent to which courts ensured public access to information as well as comply

6 Lihat *Website PA akan dinilai ulang*, www.badilag.net, diakses tanggal 1 Februari 2011. Dalam berita itu, Direktur Jenderal Badilag lebih lanjut mengatakan "Assessment (penilaian) atas website Peradilan Agama yang telah dilakukan oleh NLRP beberapa waktu lalu sangat berguna bagi kami di Peradilan Agama. Penilaian itu memotivasi kawan-kawan di pengadilan untuk meningkatkan performa situs masing-masing."

6 See *Website PA Akan Dinilai Ulang*, www.badilag.net, accessed on 1 February 2011. The Director General of the Religious Courts Affairs stated in the news that "The Assessment of the Religious Courts websites which was conducted by NLRP recently is very useful for us. The assessment has motivated our colleagues in the courts to improve the websites."

melayani kebutuhan informasi publik sekaligus menjalankan aturan, dipantau secara objektif. Bahkan, ada harapan kuat agar penilaian semacam ini dapat dilakukan secara berkala misalnya setahun sekali.

with relevant legislation. The hope was even expressed that such an assessment should be conducted regularly, perhaps once in a year.

Respon positif tersebut menjadi motivasi bagi tim penilai untuk melakukan penilaian yang lebih baik dan lebih terstandarisasi. Dengan dukungan NLRP, penilaian yang disempurnakan ini kemudian dilakukan dengan hasilnya sebagaimana tertuang dalam buku ini.

This positive response encouraged the assessment team to further develop and standardize the assessment. Supported by the NLRP, this effort resulted in this book.

Kriteria penilaian disusun secara lebih ketat dan rinci dari sebelumnya. Masing-masing sub kriteria pun di-*break down* menjadi lebih rinci. Kriteria penilaian yang lebih ketat dan rinci ini secara tidak langsung mempengaruhi bahkan mengubah posisi pengadilan terbaik dari segi keterbukaan informasi di *website*.

The assessment indicators are stricter and detailed than before. Each sub-criteria is broken down in greater detail. Also, stricter and more detailed indicators can indirectly affect the ranking of courts in terms of public access to information on their websites.

Pada saat penilaian ini dilakukan, Mahkamah Agung menerbitkan SK 1-144/2011 tentang Pedoman Layanan Informasi di Pengadilan sebagai pengganti dari SK 144/2007 tentang Keterbukaan Informasi di Pengadilan. Kedua SK ini pada dasarnya memiliki kesamaan aturan mengenai informasi mana yang terbuka untuk publik. Namun, SK yang baru mengatur secara lebih rinci kriteria dari informasi tersebut. Meskipun SK 144/2007

During the assessment, the Supreme Court passed SK 1-144/2011 regarding Guideline of Public Information Services in the Courts which amended SK 144/2007 regarding Public Access to Information in the Courts. These SKs basically are very similar as regards the information that must be made available to the public. The new SK regulates such information in greater detail, however. Even though SK 144/2007 no longer applies, this book

tidak berlaku lagi, namun penilaian *website* secara menyeluruh dalam buku ini tetap merujuk padanya, mengingat belum semua pengadilan sempat menyesuaikan diri dengan ketentuan SK 1-144/2011. SK yang baru tentunya bisa dijadikan dasar dalam menilai keterbukaan informasi publik di *website* pengadilan di masa mendatang.

still refers to SK 144/2007 as many courts are still in the process of implementing SK 1-144/2011. Of course, the new SK should become the basis for assessing public access to information of courts websites for the future.

Kegiatan penilaian ini tidaklah menghasilkan ukuran kinerja sebuah pengadilan secara langsung dan menyeluruh, akan tetapi hanya terbatas pada kinerja transparansi pengadilan dari satu sisi, yaitu penyediaan informasi publik di *website* pengadilan. Namun, kegiatan penilaian ini sangat penting dan dapat menjadi batu loncatan dalam melakukan penilaian kinerja pengadilan secara menyeluruh.

This assessment does not capture the performance of a court directly and comprehensively, but is limited to considering court performance on a single issue, being public access to information on its websites. Even so, this assessment is important and can serve as a jumping board to assess the performance of the judiciary more broadly.

## B. **Maksud & Tujuan**

Penilaian *website* pengadilan dilakukan dengan maksud dan tujuan sebagai berikut:

1. Mengukur sejauh mana pengadilan telah memenuhi amanat peraturan perundang-undangan dalam hal penyediaan informasi publik kepada masyarakat yang salah satunya

## B. **Objectives**

The assessment of the court websites was conducted with the following objectives:

1. To assess whether the courts have met statutory requirements on public access to information through their websites;

adalah melalui *website*;

2. Mengidentifikasi informasi apa yang dominan maupun yang minim muncul di *website* pengadilan; dan

3. Mengidentifikasi pengadilan dengan skor tertinggi yang mencerminkan kinerja transparansi keterbukaan informasi publik melalui *website*.

2. To identify the type of information that dominates or is notably absent from court websites;

3. To identify the courts with the highest score on public access to information through their websites.

## C. Metodologi

Metode penilaian dilakukan dengan cara sederhana yaitu pemantauan *website* seluruh lembaga peradilan yang terdiri dari peradilan umum, peradilan agama, peradilan militer dan peradilan tata usaha negara. Pemantauan dilakukan terhadap baik pengadilan tingkat pertama maupun pengadilan tingkat banding. Pemantauan dilakukan selama 2 (dua) bulan sejak 1 Desember 2010 sampai dengan 31 Januari 2011.

*Website* yang dipantau kemudian dinilai berdasarkan kriteria penilaian yang telah disepakati oleh tim penilai sebelum penilaian dilakukan. Selama kegiatan ini dilakukan, kriteria penilaian mengalami perubahan dan perbaikan. Setiap pengadilan yang sebelumnya

## C. Methodology

The assessment method which was used is simple, and involved analyzing the websites of all courts, being the district courts, religious courts, military courts and state administrative courts. The assessment was conducted at both district court and appeal court levels. The assessment was conducted for 2 months from 1 December 2010 to 31 January 2011.

The websites were given a score based on indicators that had been previously agreed. As the assessment progressed it sometime necessitated mild adjustments of the indicators. Every time there was an adjustment, all court websites that had already been assessed were revisited.

dinilai dengan kriteria penilaian yang lama kemudian dinilai kembali dengan menggunakan kriteria penilaian yang terbaru. Untuk lebih jelasnya mengenai detail kriteria penilaian, silakan lihat Bab 2 buku ini.

For details of the indicators we refer to Chapter 2 of this book.

Setelah semua data penilaian terkumpul, data tersebut kemudian diolah untuk menghasilkan tolok ukur perkembangan keterbukaan informasi di *website*. Dari hasil tersebut bisa diketahui informasi publik jenis apa yang sering dan tidak sering muncul, jumlah *website* pengadilan, dan pengadilan terbaik dengan skor penilaian tertinggi.

After all data from the assessment were gathered, these data were then analyzed, to get a sense on the main standards of public access to information on court websites, and how these developed. The result of this analysis allows us to identify the type of public information that appears most frequently, or conversely is mostly absent, the number of courts websites and the courts with the highest scores.

## D. Susunan Buku

Buku ini terdiri dari 5 (lima) bab. Kelima bab tersebut membahas kegiatan dan hasil penilaian secara rinci mulai dari sistem dan skoring penilaian, temuan utama, statistik konten informasi, hingga hasil penilaian *website* itu sendiri.

Bab 1 merupakan bab pendahuluan yang menjelaskan latar belakang kegiatan ini dilakukan, maksud dan tujuannya, dan metodologi penilaian. Bab 2 membahas penilaian. Sistem dan dasar skoring serta kriteria penilaian dibahas dalam bab ini. Bab 3 mengidentifikasi temuan-temuan

## D. Book structure

This book consists of 5 chapters. These chapters cover the activities and assessment result in detail, starting from the system and scoring method, principal findings, information content statistic, to the assessment of the websites.

Chapter 1 is an introductory chapter which explains the background of the activities, purpose and assessment methodology. Chapter 2 looks at the assessment. The system, scoring indicators and assessment criteria are discussed in this chapter. Chapter 3

utama dan menarik dari kegiatan penilaian yang dilakukan.

considers the main findings.

Selanjutnya, Bab 4 membahas statistik konten informasi pengadilan. Di bab ini terlihat jenis informasi apa saja yang sering atau tidak sering muncul di *website* pengadilan. Dan Bab 5, sebagai bab terakhir, menggambarkan hasil penilaian konten informasi *website*. Di bab ini, pengadilan-pengadilan terbaik dan terburuk dalam penyediaan informasi publik bisa dilihat. Di samping kelima bab di atas, buku ini juga menampilkan lampiran-lampiran mengenai hasil penilaian atas seluruh lembaga peradilan.

Chapter 4 considers the statistics on the contents of the court websites. This chapter gives an analysis on what type of information is most present (or absent) in the judiciary websites. Chapter 5, the last chapter, describes the information content in the websites. In this chapter, readers will find the courts with the best and worst score on public access to information. In addition to the five chapters mentioned above, this book also has annexes with the assessment result of all courts.

## Bab 2

## Penilaian

### A. Dasar Penilaian

Sebagaimana dijelaskan dalam Bab 1, dasar penilaian *website* adalah UU KIP dan SK 144/2007. Kedua aturan tersebut menjadi dasar keterbukaan informasi publik di lembaga publik khususnya di sektor peradilan. Walaupun saat ini SK 144/2007 sudah tidak berlaku lagi dengan adanya SK 1-144/2011, hal ini tidak membuat kriteria penilaian didasarkan pada aturan yang baru. Penilaian *website* pengadilan disusun saat SK 144/2007 masih berlaku. Pemberlakuan aturan baru di awal 2011 dan dibutuhkannya waktu bagi semua pengadilan untuk mengadopsi sistem penyediaan informasi menurut SK 1-144/2011 membuat tim penilai tetap mengacu pada SK 144/2007. SK 1-144/2011 pastinya bisa dijadikan acuan bagi penilaian *website* pengadilan di masa mendatang.

Dalam UU KIP, jenis informasi publik yang harus disediakan oleh badan atau lembaga publik di antaranya tercantum pada Pasal 9 ayat (2) dan Pasal 11 ayat (1). UU KIP juga mengatur informasi publik di sektor hukum dan peradilan sebagaimana tercantum dalam Pasal 18.

## Chapter 2

## Assessment

### A. Assessment Indicators

As explained in the Chapter 1, the basis for assessing website are UU KIP and SK 144/2007. These regulations continue to serve as the basis of public access to information in state agencies, including the judiciary. Although SK 144/2007 is no longer in force following the enactment of SK 1-144/2011, the indicators are not based on SK 1-144/2011. The court websites assessment was conducted when SK 144/2007 was still in force. The enactment of a new regulation in early 2011 takes time as as courts must adjust their websites, and the team therefore continued to use SK 144/2007 as its reference. SK Number 1-144/2011 should obviously be used as a reference for future assessments of court websites.

In the UU KIP, the types of public information that must be provided by state agencies are notably stipulated in Article 9 (2) and Article 11 (1). Article 18 of the UU KIP also regulates public information in the legal sector and the judiciary.

Pasal 9 ayat (2) menyatakan bahwa informasi yang wajib disediakan dan diumumkan kepada publik secara berkala adalah sebagai berikut:

1. Informasi yang berkaitan dengan badan publik;
2. Informasi mengenai kegiatan dan kinerja badan publik terkait;
3. Informasi mengenai laporan keuangan; dan/atau
4. Informasi lain yang diatur dalam peraturan perundang-undangan.

Sebagai tambahan, Pasal 11 ayat (1) mewajibkan setiap badan publik untuk menyediakan informasi publik setiap saat yang meliputi:

1. Daftar seluruh informasi Publik yang berada di bawah penguasaannya, tidak termasuk informasi yang dikecualikan;
2. Hasil keputusan Badan Publik dan pertimbangannya;
3. Seluruh kebijakan yang ada berikut dokumen pendukungnya;
4. Rencana kerja proyek termasuk di dalamnya perkiraan pengeluaran tahunan Badan Publik;

Article 9 (2) specifies the following information that must routinely be provided and announced to the public:

1. Information on the state agency;
2. Information on the activities and performance of the state agency;
3. Information on the financial reports; and/or
4. Other information as required by Indonesian law .

In addition, Article 11 (1) obliges every state agency to provide the following information at all times:

1. A list of all information accessible to the public under its authority, unless such information is legally exempted.
2. The decisions of the state agency and the underlying considerations;
3. All existing policies and their support documents;
4. Project plans, including annual budget projections;

5. Perjanjian Badan Publik dengan pihak ketiga;
6. Infomasi dan kebijakan yang disampaikan Pejabat Publik dalam pertemuan yang terbuka untuk umum;
7. Prosedur kerja pegawai Badan Publik yang berkaitan dengan pelayanan masyarakat; dan/atau
8. Laporan mengenai pelayanan akses Informasi Publik sebagaimana diatur dalam UU KIP.

5. Agreements of the state agency with third parties;
6. Information and policies presented by Public Officials in an open forum;
7. Working procedure of state agency related to service to the public; and/or
8. Reports on public access to information as regulated under the UU KIP.

Selain itu, Pasal 18 UU KIP mengatur secara tidak langsung informasi apa saja yang bisa terbuka untuk publik. Pengaturan secara tidak langsung di sini maksudnya bahwa pasal ini hanya menyebutkan informasi-informasi pengadilan berikut dikecualikan dari jenis informasi yang rahasia:

1. Putusan badan peradilan;
2. Ketetapan, keputusan, peraturan, surat edaran, ataupun bentuk kebijakan lain;
3. Rencana pengeluaran tahunan lembaga penegak hukum; dan
4. Laporan keuangan tahunan lembaga penegak hukum.

In addition, Article 18 UU KIP stipulates indirectly the type of information that must be made available to the public. The Article says that the following court information is public ('not confidential'):

1. Court decisions;
2. Decrees, Decision, Regulation, Circular Letter or other policies;
3. Annual budget plans of law enforcement agencies; and
4. Annual financial reports of law enforcement agencies.

Sementara itu, SK 144/2007 mengatur lebih detail lagi mengenai jenis-jenis informasi publik yang wajib disediakan oleh pengadilan kepada publik. Setidaknya ada dua pasal utama yang mengatur keterbukaan dan jenis informasinya yaitu Pasal 6 ayat (1) dan Pasal 7 ayat (1) dan (2). Pasal 6 ayat (1) mengatur bahwa informasi yang disediakan kepada publik meliputi sebagai berikut:

a. Gambaran umum Pengadilan: fungsi, tugas, yurisdiksi, struktur organisasi, personil (hakim), dan alamat;

b. Proses beracara di pengadilan;

c. Hak-hak pencari keadilan dalam proses peradilan;

d. Biaya yang berhubungan dengan proses penyelesaian perkara serta biaya hak-hak kepaniteraan sesuai dengan tugas, kewenangan, dan kewajiban pengadilan;

e. Putusan dan penetapan pengadilan yang telah berkekuatan hukum tetap;

f. Putusan dan penetapan pengadilan tingkat pertama dan banding yang belum berkekuatan hukum tetap dalam perkara-perkara tertentu (korupsi, terorisme, narkotika/psikotropika,

SK 144/2007 regulates in greater detail the type of information that the courts must provide to the public. Two provisions relate to this issue in particular, i.e. Article 6 (1) and Article 7 (1) and (2). Article 6 (1) says the following information must be provided to the public:

a. General description of the courts: function, tasks, jurisdiction, organizational structure, personnel (judges) and address;

b. Procedural law in the courts;

c. Rights of justice seekers in the judiciary process;

d. Court and administrative fees attached to the settlement of cases in accordance with court function, authority and obligations;

e. Court decisions and stipulations that are final and binding;

f. District and Appeal Court decisions and stipulations which are not final and binding, if related to corruption, terrorism, drugs, money laundering and cases attracting public intention;

pencucian uang, dan perkara lain yang menarik perhatian);

g. Agenda sidang pada pengadilan tingkat pertama;

h. Agenda sidang pembacaan putusan, bagi pengadilan tingkat banding dan tingkat kasasi;

i. Mekanisme dugaan pengaduan pelanggaran yang dilakukan oleh hakim dan pegawai; dan

j. Hak masyarakat dan tata cara memperoleh informasi di pengadilan.[7]

g. District Court schedule of court sessions;

h. Appeal and Supreme Courts schedule of sessions in which decisions are issued;

i. Complaints mechanism against judges and court personnel; and

j. Citizen rights and the procedure to obtain information from the courts.[7]

7 Jenis-jenis informasi yang wajib disediakan oleh pengadilan kepada publik sebagaimana diatur dalam SK 144/2007 ini, diatur secara lebih rinci dalam SK 1-144/2011. Secara umum, semua jenis informasi yang diwajibkan menurut SK 144/2007 tetap dipertahankan oleh SK 1-144/2011, akan tetapi terdapat beberapa tambahan. Dalam kategori informasi mengenai profil pengadilan misalnya, SK 1-144/2011 mewajibkan untuk diumumkannya Laporan Harta Kekayaan Pejabat Negara (LHKPN) di pengadilan yang telah diverifikasi oleh KPK. SK 144/2007 sebelumnya tidak mengatur hal ini. SK 1-144/2011 juga mewajibkan kategori informasi baru yang wajib diumumkan kepada publik, antara lain kategori informasi mengenai program kerja, kegiatan, keuangan dan kinerja pengadilan. Kategori baru ini antara lain terdiri dari ringkasan informasi tentang program yang sedang dijalankan pengadilan, ringkasan Laporan Akuntabilitas Kinerja Instansi Pemerintah (LAKIP), ringkasan daftar aset dan inventaris, dan informasi tentang pengumuman pengadaan barang dan jasa.

7 The information that courts must provide to the public as regulated under SK 144/2007 is regulated in greater detail in SK 1-144/2011. Generally, all information that must be provided according to SK 144/2007 is retained in SK 1-144/2011, which adds further information requirements however. Thus, in the category of information regarding the court profile SK 1-144/2011 also obliges that Wealth Reports (LHKPN) verified by KPK must also be published by the court. The SK 144/2007 does not regulate this. SK 1-144/2011 also creates new mandatory information categories for the public, including information on the work plan, activities that have been undertaken, budget and court performance. Also included is the requirement to include information on programs being realized by the court, a summary of the State Agency Performance Accountability Report (LAKIP), an inventory and asset list and information on the procurement of goods and services.

Sedangkan, Pasal 7 ayat (1) dan (2) mengatur mengenai media penyampaian informasi di mana *website* menjadi salah satu media keterbukaan informasi. Bagi pengadilan yang memiliki *website*, pengadilan tersebut mengumumkan informasi publik dengan cara memasukkan atau mengunggah informasi tersebut ke dalam *website* yang bersangkutan.

Article 7 (1) and (2) regulate the media outlets through which information is delivered, with websites being one of the outlets. Courts which are equipped with website must announce public information by uploading such information on their website.

## B. **Kriteria dan Sistem Penilaian**

### 1. Apa kriterianya?

Beranjak dari dasar penilaian menurut UU KIP dan SK 144/2007, kriteria penilaian atas *website* pengadilan yang kemudian ditentukan adalah sebagai berikut:

## B. **Criteria and Method of Assessment**

### 1. What are the criteria?

Based on the assessment criteria stipulated under the UU KIP and SK 144/2007, the assessment criteria for the judiciary website are as follows:

**Tabel 2.1. Matriks Penilaian *Website* Lembaga Peradilan Berdasarkan UU KIP dan SK 144/2007**

***Table 2.1. Courts Websites Assessment Matrix based on UU KIP and SK 144/2007***

| No. | Kriteria<br>*Criteria* | Sub Kriteria<br>*Sub criteria* | Keterangan<br>*Remarks* |
|---|---|---|---|
| 1. | Informasi Pengadilan<br>*Data on the court* | Pengadilan<br>*Court* | Berisi profil pengadilan yang bersangkutan.<br>*Contains the court profile.* |
| | | Hakim<br>*Judges* | Profil para hakim.<br>*Judicial profiles.* |
| | | Panitera<br>*Registrars* | Profil para panitera .<br>*Registrar profiles.* |
| | | Struktur dan Pejabat<br>*Structure and Officials* | Struktur organisasi dan pejabat pengadilan.<br>*Organizational structure and court officials.* |
| | | Alamat<br>*Address* | Alamat pengadilan.<br>*Court address.* |
| 2 | Perkara<br>*Data on cases* | Putusan<br>*Decisions* | Putusan pengadilan.<br>*Data on court decisions.* |
| | | Statistik perkara<br>*Case statistics* | Data statistik perkara pengadilan.<br>*Data on case statistics.* |
| | | Jadwal sidang<br>*Agenda* | Data mengenai jadwal sidang pengadilan.<br>*Data on hearing agenda.* |
| | | Prosedur litigasi<br>*Litigation procedures* | Prosedur atau hukum acara perkara di pengadilan.<br>*Procedural rules.* |

| No. | Kriteria<br>*Criteria* | Sub Kriteria<br>*Sub criteria* | Keterangan<br>*Remarks* |
|---|---|---|---|
| 3 | Pengawasan<br><br>*Data on supervision* | Statistik pengaduan<br><br>*Complaints statistics* | Data statistik pengaduan masyarakat atas pelanggaran yang dilakukan oleh personil pengadilan.<br><br>*Data on complaints statistics on the court personnel.* |
| | | Prosedur pengaduan<br><br>*Complaints procedures* | Informasi prosedur pengajuan pengaduan.<br><br>*Information on how to file complaints to the court.* |
| | | Sanksi disiplin<br><br>*Disciplinary sanctions* | Data sanksi disiplin personil.<br><br>*Data on disciplinary sanctions imposed on court personnel.* |
| 4 | Keuangan<br><br>*Data on financial* | Biaya perkara<br><br>*Case costs* | Biaya berperkara di pengadilan.<br><br>*Case costs that must be paid by litigant.* |
| | | Laporan keuangan<br><br>*Financial report* | Laporan realisasi penggunaan keuangan atau APBN periode tertentu.<br><br>*Implementation of the court budget.* |
| | | Anggaran keuangan<br><br>*Budget* | Anggaran keuangan pengadilan periode tertentu.<br><br>*Court budget allocation from the State.* |
| 5 | Lain-lain<br><br>*Other* | Bahasa<br><br>*Language* | Informasi atau konten *website* dalam Bahasa Inggris atau bahasa asing lainnya.<br><br>*Information of website in English or other languages.* |

Kriteria penilaian di atas pada dasarnya mengikuti matriks kriteria penilaian yang dilakukan oleh NLRP selama ini. Tidak ada perbedaan kriteria dengan apa yang tercantum di dalam QFS yang diterbitkan oleh NLRP.

These assessment criteria basically follow the matrix of assessment criteria designated by NLRP hitherto. There is no difference in the criteria applied by the QFS published by NLRP.

2. Bagaimana Sistem Penilaian atau Skoring?

2. What is the scoring system?

Begitupun dengan sistem penilaian atau skoring, sistem skor kelengkapan informasi juga mengikuti sistem yang diterapkan oleh NLRP selama ini, yaitu:

The scoring system designed by the NLRP similarly is used here:

**Table 2.2. Skor kelengkapan informasi**
***Table 2.2. Scoring Matrix***

| Skor<br>*Score* | Keterangan<br>*Remarks* |
|---|---|
| 2 | Informasi lengkap<br>*Complete Information* |
| 1 | Informasi tidak lengkap<br>*Fair Information* |
| 0 | Informasi minim atau tidak ada sama sekali<br>*No information or very limited information* |

Hanya saja perlu diperhatikan bahwa untuk penilaian kali ini, tim penilai mencoba merumuskan secara detail bagaimana sistem penilaian atas ketersediaan informasi publik di masing-masing *website* pengadilan. Dapat dikatakan bahwa melalui sistem penilaian

It should however be noted that for this book, the team has made an effort to be more specific about the scoring system on public access to information in each court website. With a more specific system we can say that the scoring standard has also improved. The greater

ini, standar penilaian atas keterbukaan informasi publik menjadi semakin tinggi. Adanya kedetailan sistem penilaian ini tentunya mempengaruhi nilai yang pernah diperoleh sebuah *website* pengadilan. Nilainya bisa naik ataupun bisa turun. Hal ini tergantung pada pemutakhiran data yang dilakukan oleh setiap pengadilan.

Untuk mengetahui lebih lengkapnya mengenai sistem penilaian ini, silakan lihat tabel berikut:

detail in the assessment of the websites has also affected the scores which the websites received before (in the QFS), and in some cases have either increased or decreased. This depends on the latest developments on data management effected by each court.

The following table shows the more detailed assessment:

**Tabel 2.3 Matriks Detail Penilaian *Website* Lembaga Peradilan**

Dari keenambelas sub kriteria penilaian yang dijabarkan secara detail di atas, sub kriteria putusan dan statisik perkara saling berhubungan. Keduanya merupakan informasi penting khususnya bagi para pencari keadilan dan para pengamat hukum/peradilan. Tim penilai sempat kesulitan untuk menentukan sistem penilaian detail untuk kedua sub kriteria ini. Namun, akhirnya ditentukan bahwa untuk memperoleh skor 2 bagi putusan, persyaratan yang harus tersedia oleh *website* pengadilan adalah jumlah putusan pengadilan di tahun tertentu (misalnya tahun 2010) memiliki persentase 71-100% dari jumlah perkara putus di tahun yang bersangkutan. Persyaratan ini lebih ketat dibandingkan dibandingkan untuk penilaian skor 1 dan 0 di sub kriteria yang sama.

From the sixteen assessment criteria set out above, the criteria on the decisions and case statistics are closely tied. They generate information which is relevant for both litigants and legal scholars. It was not always self-evident to attach scores for the sub-criteria. It therefore was decided that for a court website to obtain a perfect score of 2 points on the number of court decisions in any one year, it must carry 71-100% of all decisions issued that year. This makes the assessment more precise than if the requirement had been to just score 1 or 0 in the same sub criteria.

Kita bisa melihat statistik perkara yang ada di situs yang bersangkutan untuk mengetahui jumlah persentase putusan yang diunggah ke *website*. Namun, bila statistik perkara tidak tersedia, maka data statistik tahun tertentu yang lain (misalnya data yang ada terakhir adalah per tahun 2008) digunakan. Data ini bersumber dari sumber yang valid. Dari data ini kemudian dilihat jumlah perkara putusnya dan membandingkan dengan jumlah putusan yang tersedia di *website*.

The case statistics on the website show the percentage of decisions uploaded onto the website. If case statistics are not available, the statistical data from other (promixate) years will be used (such as the case data from 2008). These data originate from valid sources. In the above example, we look at the 2008 case data to determine how many cases were decided and then compare that with the number of cases uploaded onto the court website.

Apabila jumlah putusan yang diunggah signifikan, namun informasi statistik perkara tidak tersedia atau tidak dapat diperoleh, maka perhitungan penilaian akan dilihat dari jumlah perkara putus rata-rata dari statistik perkara terakhir yang diperoleh tim untuk 2-3 tahun statistik sebelumnya (misalnya statistik perkara 2010 belum ada statistiknya, namun ada statistik 2007 & 2008). Dari situ, jumlah perkara putus di 2007 dan 2008 dihitung rata-ratanya dan kemudian dibandingkan dengan jumlah putusan yang diunggah ke *website* yang bersangkutan. Hal ini dilakukan mengingat jumlah perkara pada suatu wilayah yurisdiksi pada umumnya tidak mengalami perubahan secara signifikan dari tahun ke tahun.

If the number of cases uploaded is significant, however the statistical information of the cases is not available, the scoring will be based on the average amount of cases decided from the latest case statistic (going back 2-3 years). So, if the 2010 case statistics are not available, we used the the 2007 & 2008 statistics. The cases decided in 2007 and 2008 are then averaged out and that outcome is compared to the number of decisions uploaded to the court website. This method is reliable because generally there is no big change in the number of cases decided by a court from one year to the next.

Bagaimana apabila ada dua atau lebih pengadilan yang memiliki nilai atau skor total yang sama atau imbang? Bagaimana menentukan peringkat pengadilan tersebut? Kami telah menentukan bahwa apabila terdapat kesamaan skor total atas dua atau lebih pengadilan, maka peringkat ditentukan dengan skenario-skenario sebagai berikut:

What if there are two or more courts with the same total score? How do we rank these courts? We decided that in this case, ranking is determined as follows:

1. Apabila skor total dua atau lebih pengadilan adalah sama, maka **skor total informasi perkara** akan dilihat. Skor yang besar menentukan peringkat pengadilan yang bersangkutan.

1. If courts have the same end score, we will look at the **total score on case information**. This score will determine the final ranking because of all criteria in this assessment, the information on

Sebagai catatan, diantara kriteria-kriteria penilaian yang digunakan, kriteria informasi perkara merupakan kriteria yang secara prinsip dan konstitusional paling penting. Walaupun penilaian kali ini tidak membedakan bobot nilai antara kriteria informasi perkara dengan kriteria-kriteria lainnya, perlu ditekankan bahwa informasi perkara secara prinsip tetap yang paling utama. Oleh karenanya, kriteria ini menjadi kriteria yang pertama kali dipertimbangkan dalam menentukan peringkat pengadilan bila terdapat skor yang sama antara dua pengadilan atau lebih.

cases is the most important from a perspective of legal principle and constitutionality. This study does not otherwise use weighted criteria, except in this specific case recognizing that case information quite simply outweighs all other criteria. So, if different courts end up with the same score, the court with the best case information will prevail.

2. Apabila ternyata skor total informasi perkara adalah sama, maka **skor total informasi pengadilan** yang akan dilihat. Semakin besar skor total informasi pengadilan, maka semakin tinggi juga peringkat pengadilan yang bersangkutan.

2. If the total score of case information is the same, the total **score of court information** will determine ranking. The higher the total score of court information, the higher the rank of respective courts.

3. Apabila ternyata skor total informasi pengadilan adalah sama, maka **skor total informasi keuangan** yang akan dilihat. Semakin besar skor total informasi

3. If the total score of court information is the same, the **total score of financial information** will determine ranking. The

keuangan, maka semakin tinggi juga peringkat pengadilan yang bersangkutan.

4. Apabila ternyata skor total informasi keuangan tetap sama, maka **skor total informasi pengawasan** yang akan dilihat.
5. Namun, apabila ternyata skor total informasi pengawasan juga tetap sama, maka **skor total informasi bahasa** yang akan dilihat.
6. Bila akhirnya skor informasi bahasa juga tetap sama, maka pemeringkatan dilakukan berdasarkan kesepakatan tim penilai. Desain, kecepatan akses, *user friendly*, dan sebagainya menjadi bahan penilaian untuk penentuan peringkat.

Keenam skenario di atas merupakan bentuk antisipasi dalam rangka pemeringkatan pengadilan-pengadilan di Indonesia menurut ketersediaan informasi publik.

higher the total score of financial information, the higher the rank of respective courts.

4. If the total score of the financial information is the same, the **total score of supervision information** will determine ranking.
5. If the total score of the supervision information is also the same, the total **score of language information** will determine ranking.
6. If the score of the language information is still the same, ranking will be based on the consensus of the team. The outcome will then be determined by web design, access speed, user friendliness, etc.

The six scenario's outlined above help finesse the ranking of Indonesian courts in terms of public access to information.

## Bab 3

## Temuan Utama

### A. Cakupan Informasi *Website*

Dari penilaian yang telah dilakukan terhadap 807 pengadilan di tingkat pertama dan tingkat banding, secara umum sebagian besar pengadilan telah mengadopsi dan mengimplementasikan UU KIP dan SK 144/2007. Jenis-jenis informasi publik yang dibutuhkan oleh para pencari keadilan seperti putusan perkara, prosedur perkara, dan jadwal sidang sudah diakomodir oleh sebagian besar pengadilan, walaupun informasi tersebut tidak selalu *up to date* (mutakhir).

Bagi publik secara umum, informasi soal profil pengadilan itu sendiri, profil hakim, profil panitera, struktur organisasi dan alamat pengadilan tentunya akan membantu masyarakat dalam melihat pengadilan secara utuh. *Website* bisa menjadi sarana murah bagi masyarakat untuk memperoleh informasi pengadilan.

Dari 807 pengadilan yang dipantau tim penilai, *website* yang dimiliki oleh pengadilan-pengadilan tersebut

## Chapter 3

## Principal Findings

### A. Website Information

The assessment shows that most 807 courts of the land have adopted and implemented the UU KIP and SK 144/2007. Litigants and the public will notably be interested in case decisions, case procedures and hearing schedules. Most court provide these, even if the information is not always up-to-date.

Information on court profile, judges' profile, registrars' profile, organizational structure and court addresses will certainly be a great help for the public to understand the judiciary more generally. Website may become the most efficient instrument for the public to get information about the courts.

This assessment done by this study looked at 807 courts, whose websites all carry quite similar types of information.

memiliki cakupan informasi yang hampir seragam. Perbedaan menu informasi antar pengadilan tentunya ada, namun tidak terlalu signifikan. Perbedaan menu informasi umumnya hanya menyangkut soal penamaan. Yang terpenting adalah isi dari informasi tersebut telah mencerminkan menu yang ditampilkan.

The difference from one court to another court is not significant. There are mild terminological differences in the website menu's. What matters is that the information contents is reflected in the menu which is posted on the website.

Dari semua pengadilan yang dipantau dan dinilai, kami mencoba mengkompilasikan menu-menu informasi yang digunakan oleh seluruh *website* pengadilan. Setidaknya terdapat 36 menu yang ditampilkan. Di beberapa pengadilan, terkadang menu-menu informasi tersebut dijadikan sub menu. Namun, kami tetap menganggap bahwa sub menu informasi adalah juga menu informasi dari *website*. Untuk lebih lengkapnya mengenai kompilasi menu (dan sub menu), silakan lihat berikut ini:

We tried to pull together the menu's utilized by the court websites which we reviewed. There are at least 36 menus, which in some cases will be displayed as a sub-menu. Details are as follows:

1. Halaman muka
2. Berita pengadilan
3. Buku tamu
4. Profil pengadilan
5. Peta yurisdiksi
6. Visi misi
7. Tugas, pokok, dan fungsi pengadilan

1. Home
2. Court news
3. Online guest book
4. Court profile
5. Jurisdiction Map
6. Vision and mission
7. Primary task and court functions

8. Lokasi pengadilan
9. Kontak
10. Struktur organisasi
11. Profil hakim
12. Profil pegawai struktural
13. Profil pegawai fungsional
14. Profil staf
15. Profil tenaga honorer
16. Info perkara
17. Perkara masuk
18. Perkara putus
19. Jadwal sidang
20. Direktori putusan perkara
21. SOP atau Standar Operasional Prosedur
22. Prosedur pendaftaran perkara
23. Prosedur berperkara
24. Prosedur acara perkara
25. Statistik atau grafik perkara
26. Data pengawasan masyarakat
27. Statistik pengaduan
28. Prosedur pengaduan

8. Court location
9. Contact
10. Organizational structure
11. Judges profile
12. Structural officers profile
13. Functional officers profile
14. Staff profile
15. Honorary employees profile
16. Case info
17. Incoming cases
18. Decided cases
19. Hearing schedule
20. Directory of decisions
21. SOP or Standard Operational Procedures
22. Procedure for filing a case
23. Procedure for litigation
24. Procedural law
25. Case statistics or graphs
26. Supervision data
27. Complaints statistics
28. Complaints procedures

29. DIPA
30. Realisasi DIPA
31. Panjar biaya perkara
32. Prosedur pengembalian panjar perkara
33. Pendapatan Negara Bukan Pajak (PNBP)
34. Daftar aset milik negara
35. Lelang aset
36. Bahasa asing

29. DIPA (Budget)
30. Realization of DIPA
31. Court fees
32. Procedure of case fees return
33. Non-Tax State's Income (PNBP)
34. List of state assets
35. Asset auctions
36. Foreign language

Sejak berlakunya SK 144/2007 dan UU KIP hingga penulisan ini dilakukan, setidaknya terdapat 699 pengadilan (baik di level pertama maupun banding) yang telah memiliki *website*. Jumlah ini adalah 86,62% dari jumlah seluruh pengadilan di bawah MA. Jumlah dan persentase ini tentunya cukup besar apalagi bila SK 1-144/2011 sebagai pengganti SK 144/2007 mulai diimplementasikan oleh seluruh pengadilan.

From the enactment of SK 144/2007 and the UU KIP until the completion of this assessment, 699 courts (both district courts and appeal courts) developed their own websites. This is 86,62% of all 807 courts under the Supreme Court. The number and percentage is quite large, and is likely to become bigger still after SK 1-144/2011 (replacing SK 144/2007) is to be implemented by all courts.

Dari 699 *website* pengadilan yang tersedia, terdapat 646 *website* yang bisa diakses dan mengandung informasi, 25 *website* pengadilan yang bisa diakses namun tidak mengandung informasi apapun (*no information atau NI*), dan 28 pengadilan yang memiliki situs namun tidak bisa diakses sama sekali

Of these 699 court websites, 646 websites can be accessed and carry information, 25 court websites can be accessed but do not contain any information, and 28 court websites cannot be accessed at all. The latter sites cannot be accessed because they are blocked, have been hacked or are suspended because domain payment

(*cannot be accessed atau NA*). Situs yang disebutkan terakhir ini tidak bisa diakses karena diblokir, dibajak, atau di-*suspend* oleh *server* karena belum melakukan pembayaran *domain* atau memuat kapasitas memori yang cukup besar. Sementara itu, 108 pengadilan tidak memiliki *website* sama sekali hingga penulisan ini dilakukan (*no website* atau NW).

has not been made or for technical reasons. Meanwhile, 108 courts do not have website whatsoever at the point this study was effected.

**Tabel 3.1. Keadaan *Website* pengadilan di Indonesia**

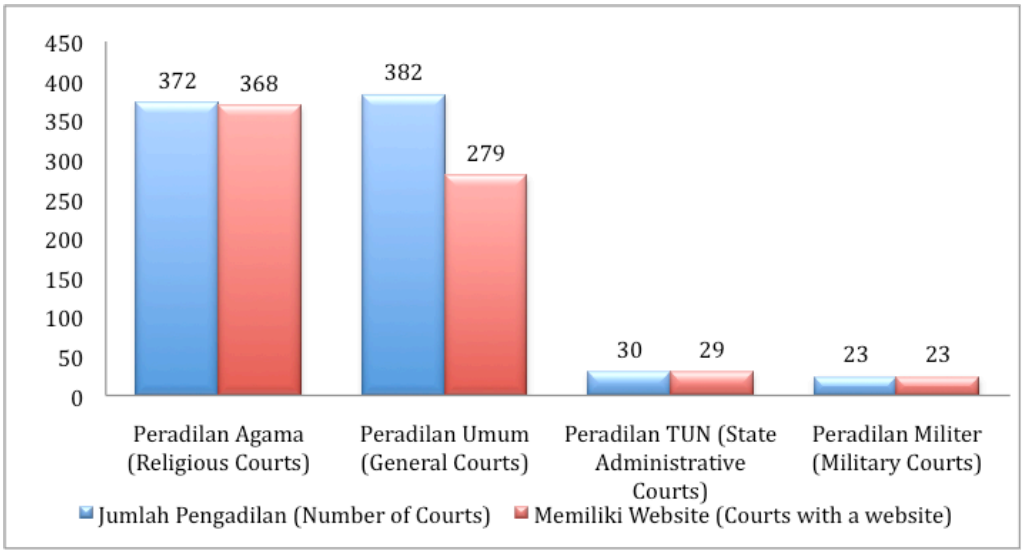
***Figure 3.1. Number of Court Websites***



## B. Substansi Website

Ada hal-hal menarik yang ditemukan selama penilaian dilakukan, yang menyangkut substansi dari *website* tersebut, yaitu:

1. Inkonsistensi antara menu informasi dengan substansi informasi yang disajikan di dalam situs. Misalnya, ketika kita mengklik atau membuka menu prosedur pengaduan, yang tampil adalah informasi komentar publik atau buku tamu *online*. Hal ini terdapat di Pengadilan Agama Kendari, sebagai contoh. Inkonsistensi ini juga terjadi di banyak pengadilan. Pengadilan-pengadilan tersebut di antaranya adalah Pengadilan Agama Jambi, Pengadilan Agama Nabire,

## B. Website Content

During our analysis of the court websites content we ran into a number of interesting issues, as follows:

1. An inconsistency between the menu and content in the website. Thus, it happened that when we clicked or opened the menu on complaints procedure, the information which showed up related to public comments or the online guest book, as happened in the Kendari Religious Court, for instance. Such inconsistencies occurred in other court websites also, such as the Jambi Religious Court, the Nabire Religious Court, the Jayapura

Pengadilan Tata Usaha Negara Jayapura, Pengadilan Tata Usaha Negara Surabaya, dan Pengadilan Tinggi Tata Usaha Negara Surabaya. Bahkan, di *website* Pengadilan Tata Usaha Negara Surabaya, ketika menu informasi struktur organisasinya dibuka, yang tampil adalah struktur organisasi MA. Begitupun dengan Pengadilan Tinggi Tata Usaha Negara Surabaya, di mana ketika profil pengadilan ini dibuka, yang tampil adalah profil MA.

Administrative Court, the Surabaya Administrative Court and the Surabaya Administrative Appeal Court. In fact, when the menu of organizational structure was clicked in the Surabaya Administrative Court website, the information that appeared was that of the MA organizational structure. The same thing happened in the Surabaya Administrative Appeal Court.

2. Berita menjadi informasi yang selalu di-*update* dibandingkan dengan menu informasi publik lain. Bukan berarti menu berita tidak penting, akan tetapi menu-menu lain seperti putusan, prosedur perkara, dan jadwal sidang jauh lebih penting bagi pencari keadilan dari berita. Bahkan, ada satu pengadilan yang mentautkan diri dengan satu situs berita *online* terkenal dan ketika penilaian ini dilakukan, informasi mengenai seorang selebriti yang muncul di berita pengadilan tersebut.

2. The News heading in the website menu is routinely updated but the other menu's are not. The news menu obviously is important, but other menus such as court decisions, procedure for filing cases and hearing schedules are more important for litigants and the public. In fact, one court linked its website with a popular online news site and when we clicked the News menu, the information which popped up was that of a popular society figure.

3. Informasi soal pengadilan seperti profil pengadilan, profil hakim, profil panitera, struktur organisasi, dan alamat menjadi informasi yang sering muncul di setiap *website*. Sedangkan, informasi

3. Most websites are quite good in generating court information such as court profile, the profile of judges and registrars, the organizational structure and addresses. However, information on matters such as

soal pengawasan yang meliputi di antaranya statistik pengaduan dan sanksi disiplin menjadi informasi yang jarang muncul. Tingkat ketersediaan informasi ini akan dijelaskan secara lebih lengkap pada bab berikutnya.

4. Pengadilan di daerah Jakarta cenderung lebih tertutup dibandingkan dengan pengadilan di daerah lain. Tertutup di sini maksudnya tingkat ketersediaan informasi publik cukup rendah dengan dibuktikan tidak masuknya pengadilan di Jakarta ke dalam lima besar tertinggi pengadilan berdasarkan skor informasi, kecuali pada peringkat pengadilan militer tinggi dan pengadilan tinggi tata usaha negara. Namun, masuknya pengadilan di daerah Jakarta dalam kedua kategori yang disebutkan tadi pun dirasa wajar karena jumlah pengadilan militer tinggi dan pengadilan tinggi tata usaha negara sedikit (3 dan 4).

Di samping hal-hal di atas, ada juga hal-hal menarik lainnya yang merupakan kemajuan dari pengembangan *website* di pengadilan. Salah satu contohnya adalah Pengadilan Tinggi Banjarmasin di Kalimantan Selatan. Pengadilan tinggi ini memperoleh angka dan peringkat yang tinggi di antara pengadilan tinggi

supervision, including complaints statistics and disciplinary sanctions appears much less frequently. The next chapter will look more closely at the information comprehensiveness.

4. Websites of the Jakarta courts tend to be less less informative than court websites elsewhere. This shows up by the fact that no Jakarta court is listed in the top five most informative websites, except for the military appeal court and administrative appeal court. With such a small number of military and administrative appeal courts (3 and 4 respectively) however, it does not require an extraordinary effort to become topscorer.

Aside from the more critical notes above, it may also be pointed out that some court websites show remarkable progress and innovation. Thus, the website of the Banjarmasin Appeal Court in South Kalimantan as one of the top scoring appeal court carries interesting information on judges' activities, notably

lainnya. Ada satu informasi menarik yang disajikan oleh pengadilan ini yaitu informasi kegiatan hakim. Informasi ini berisi mengenai jumlah perkara yang ditangani oleh setiap hakim setiap bulan dan jenis perkara yang ditanganinya. Dari 807 pengadilan, hanya Pengadilan Tinggi Banjarmasinlah yang memiliki informasi atas hakim selengkap ini.

information on the number of cases handled by each judge per month, including the type of cases. Out of 807 courts, only the Banjarmasin Appeal Court provides such detailed information

**Gambar 3.2. Contoh Tampilan Kegiatan Hakim : *Website* Pengadilan Tinggi Banjarmasin**

Sementara itu, ada juga pengadilan yang menampilkan menu informasi yang mirip (walaupun tidak semuanya sama) dengan kriteria penilaian di dalam buku ini, di antaranya adalah Pengadilan Tinggi Agama Surabaya.[8] Sementara itu, ada juga satu wilayah pengadilan agama yang desain dan tampilan *website*-nya seragam yaitu Pengadilan Tinggi Agama Bandung dan semua pengadilan agama di bawahnya. Desain dan tampilan pengadilan-pengadilan ini tentunya bisa menunjukkan adanya sinergi dari lembaga peradilan agama di wilayah Jawa Barat dalam penyediaan informasi publik.

## C. Domain yang Berbeda-beda

Hingga saat ini domain *website* masih tidak seragam atau berbeda-beda. Pengadilan adalah bagian dari lembaga negara. Walau pengadilan bukan bagian dari lembaga pemerintah, namun sebagian besar lembaga negara atau pemerintah di Indonesia menggunakan domain "*.go.id*" dalam *website*-nya masing-masing.

Terdapat peraturan yang mewajibkan seluruh lembaga negara dan pemerintah

8 Pada penilaian *website* atas seluruh PTA di Indonesia terakhir yang dilakuan oleh NLRP, Pengadilan Tinggi Agama Surabaya menjadi pengadilan terbaik dan berperingkat tertinggi. Lihat QFS edisi ke-4 halaman 23.

on the performance of its judges.

Meanwhile, several court websites carry menu's which are closely similar to the menu in this study (even if not completely identical), such as the Surabaya Religious Appeal Court.[8] Also, we also found that in one region all courts had standardized websites, being the Bandung Religious Appeal Court and all Religious Courts under its jurisdiction. The design and presentation of these court websites points at closer coordination and cooperation between the religious courts in West Java in securing public access to information.

## C. Different Domains

Currently there is no standard domain name for court websites. Courts are state agency, even if they are not part of the government, most state or government agencies websites in Indonesia use the domain name ".go.id.". The law obliges all state and government agencies to use the domain ".go.id", as reflected in Ministerial Regulation of Communication and Information Number 28/PER/M.

8 In the last website assessment of all Religious Appeal Court websites in Indonesia conducted by the NLRP, the Surabaya Religious Appeal Court was the top scoring court. See QFS Edition 4 page 23.

untuk menggunakan domain "*.go.id*". Peraturan tersebut adalah Peraturan Menteri Komunikasi dan Informatika Nomor 28/PER/M.KOMINFO/9/2006 tentang Penggunaan Nama Domain go.id untuk Situs Web Resmi Pemerintah Pusat dan Daerah. Pasal 5 peraturan ini menyebutkan bahwa yang dimaksud dengan lembaga pemerintahan di sini termasuk lembaga negara seperti Mahkamah Agung (termasuk jajaran pengadilan di bawahnya). Walaupun begitu, baru 425 pengadilan atau 52,66% dari seluruh pengadilan yang menggunakan domain *".go.id"* pada masing-masing *website*-nya.

KOMINFO/9/2006 regarding The Use of Domain go.id in Official Website of Central and Local Government. Article 5 clearly says that government agency in this regulation covers the Supreme Court (and all lower courts). Even so, only 425 courts or 52,66% of all courts use the domain name ".go.id" for their websites.

Domain "*.net*" digunakan oleh 220 pengadilan atau 27,26%. Sedangkan, domain "*.web.id*" menjadi domain paling buncit urutannya. Domain ini hanya digunakan oleh satu pengadilan saja yaitu Pengadilan Agama Pasuruan di Jawa Timur (www.pa-pasuruan.web.id)

The domain name ".net" is used by 220 courts or 22,76% of all courts. At the very bottom, the domain name ".web.id" is used by a single court, i.e. the Pasuruan Religious Court in East Java (www.pa-pasuruan.web.id)

Untuk mengetahui lebih lengkap mengenai penggunaan domain situs di seluruh pengadilan silakan lihat tabel berikut ini:

Details on the domain names used by the courts are reflected in the following table:

**Tabel 3.2. Domain *Website* di Seluruh Indonesia**

***Table 3.2. Website Domains in Indonesia***

## D. Penggunaan Bahasa Asing

Di tengah perkembangan teknologi tanpa batas dan globalisasi saat ini tentunya penggunaan bahasa asing di situs lembaga negara dan pemerintahan adalah hal yang lazim. Sebuah *website* pastinya tidak hanya dibaca oleh warga lokal namun juga dibaca oleh warga dari negara lain. Penggunaan bahasa asing khususnya bahasa internasional tentunya akan memudahkan pemakai mancanegara dalam membaca informasi-informasi di dalam *website* tersebut.

Begitupun dengan penggunaan bahasa asing di lembaga peradilan, sudah saatnya lembaga peradilan secara menyeluruh menampilkan menu bahasa asing setidaknya Bahasa Inggris. Adanya tambahan bahasa asing lain tentunya akan menjadi nilai tambah tersendiri bagi pengadilan yang bersangkutan. Penggunaan bahasa asing tentunya sangat penting mengingat di beberapa pengadilan terdapat informasi mengenai lokasi *website visitor* (pengunjung situs) yang bisa melacak dari negara mana saja situs pengadilan ini dibuka dan dilihat.

Sayangnya, hanya sebagian kecil pengadilan yang sudah menampilkan menu bahasa asing di dalam situsnya. Baru 79 dari 807 pengadilan atau

## D. The Use of Foreign Languages

In this age of borderless technological development and globalization, it has become quite common to use foreign languages for the websites of state and government agencies. A website is visited by local public as well as by foreigners. The use of a foreign language, notably an international language, will certainly ease access to information for foreign users through the websites.

It therefore is time for courts to present their websites in a foreign language, or at the least in English. Adding other foreign languages can have added value for the relevant court. The use of a foreign language also is important as several court websites track information on where website visitors come from.

The number of courts which present foreign language menus in their websites still is regrettably small. Only 79 of 807 courts or 9,79% of all court websites carry

9,79% dari seluruh pengadilan yang sudah menampilkan menu ini.[9] Dari 79 pengadilan tersebut, hanya 5 pengadilan atau 0,62% dari seluruh pengadilan yang telah benar-benar lengkap dalam menyediakan menu bahasa asing. Kelengkapan di sini maksudnya adalah bahwa bahasa asing tersebut telah disediakan menurut tata gramatika bahasa yang bersangkutan, misalnya Pengadilan Tinggi Agama Yogyakarta. Sementara itu, 74 pengadilan lain sudah menyediakan menu bahasa asing, namun masih belum memenuhi tata aturan gramatika bahasa yang bersangkutan. Barangkali faktor yang menjadi penyebabnya adalah karena mereka masih menggunakan aplikasi mesin terjemahan yang disediakan oleh Google (*Google Translate*). Tidak selamanya bahasa yang diterjemahkan oleh mesin penterjemah ini bisa memenuhi tata aturan gramatika.

a foreign language menu.[9] Out of the above 79 courts, only 5 courts or 0,62% give comprehensive information in a foreign language. "Comprehensive" here means websites which carry menus in a foreign language with correct grammar and spelling, for which the Yogyakarta Religious Appeal Court website can serve as an example. 74 other courts also have a foreign language menu on their website but with generally poor grammar and spelling. We suspect this is because they applied Google Translate to their website, when notably with technical legal terms this is a very imprecise translation tool.

## E. W*ebsite* Dibajak (*Hacked*)

Terdapat 2 (dua) *website* pengadilan yang dibajak ketika penilaian dilakukan. Secara kebetulan, keduanya merupakan *website* pengadilan negeri, yaitu Pengadilan Negeri Pemalang dan Pengadilan Negeri Simalungun. Bahkan, isi *website*

## E. Hacked Websites

Two websites were hacked when this research was being conducted, belonging to the the Pemalang and the Simalungun District Courts. The Pemalang District Court website contents was ransacked and the court logo was replaced with the logo of the

9 Untuk lebih detailnya lihat bab 4.

9 For more details see Chapter 4.

Pengadilan Negeri Pemalang diacak-acak dan logo pengadilan diganti dengan logo pihak yang membajak.[10] Kondisi ini tentunya merugikan bagi kedua pengadilan yang bersangkutan. Tim penilai tidak bisa memberikan nilai yang optimal atas isi infomasi kedua pengadilan ini, mengingat akses untuk masuk ke kedua situs ini diblokir oleh pembajak.

hacker.[10] This condition certainly is damaging to the courts. The websites were blocked by the hackers and this study cannot score them as a result.

10 Lebih jauh lagi, terdapat kemungkinan bahwa pembajakan situs ini dilakukan bersamaan dengan pengumuman peringatan pemblokiran *Blackberry* oleh Menteri Komunikasi dan Informatika pada awal 2011. Hal ini dibuktikan dengan adanya surat terbuka dari pihak pembajak kepada Menteri Komunikasi dan Informatika yang berisi peringatan kepada sang menteri.

10 It is possible that the websites were hacked when the Minister of Information and Communication blocked Blackberry in the early 2011. There is a public letter from a hacker to the Minister which points at this possibility.

## Bab 4

## Statistik Konten Informasi

Bab ini membahas mengenai jenis informasi publik yang sering ditampilkan oleh masing-masing *website* pengadilan. Apakah pengadilan sudah menyediakan informasi tersebut sebagaimana yang diatur di dalam UU KIP dan SK 144/2007? Atau informasi manakah yang sering ditampilkan oleh pengadilan dan informasi manakah yang jarang atau belum optimal ditampilkan pengadilan? Bab ini akan membahasnya. Diharapkan juga bahwa kita bisa memperoleh gambaran apakah informasi publik tersebut sudah memenuhi kebutuhan publik atau tidak.

Dari 807 pengadilan yang dinilai sepanjang Januari 2011 lalu, tabel berikut ini adalah hasilnya:

## Chapter 4

## Information Statistics

This chapter considers the type of information which is most frequently found on the court websites. Have all courts provided the information as regulated under UU KIP and SK 144/2007? Which information can be found most often, and which is rare? This will give a more accurate picture of whether court websites serve information the public demand for access to information.

The following is the result of assessment of 807 courts in January 2011.

**Tabel 4.1. Gambaran Jenis Informasi yang Ditampilkan**

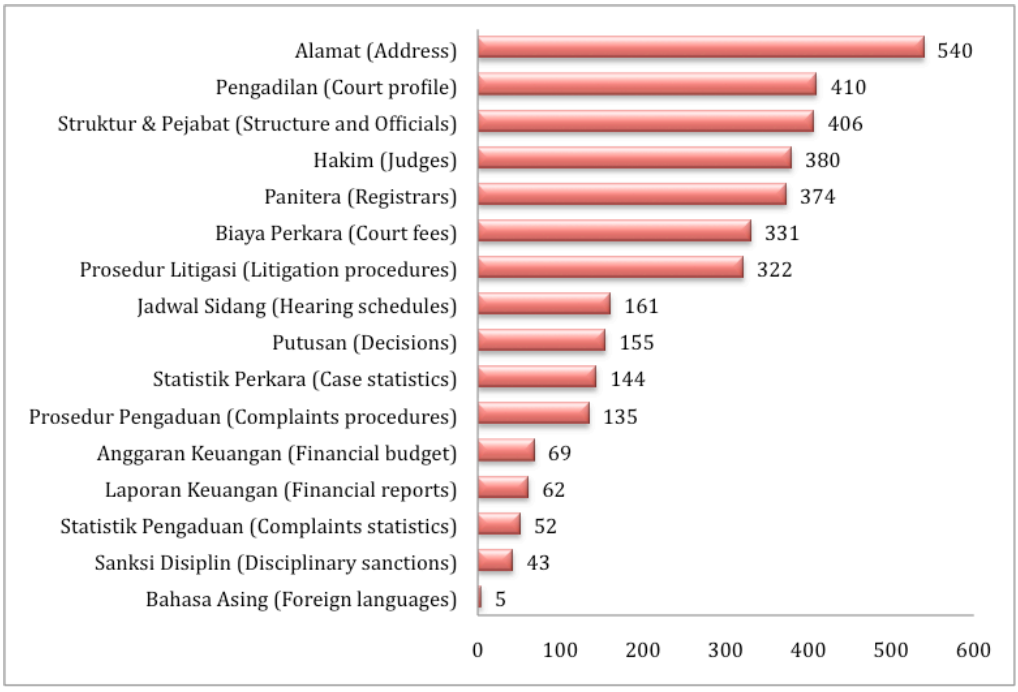
Di samping itu, di bawah ini juga terdapat Gambar 4.1 mengenai sub kriteria yang sering muncul di dalam *website* pengadilan dan memperoleh skor 2 dari hasil penilaian. Sub kriteria **Alamat** menjadi yang terbesar dimana terdapat 540 pengadilan yang menyediakan alamat secara lengkap. Sementara itu, sub kriteria **Bahasa Asing** menjadi yang terkecil dimana hanya 5 pengadilan yang menyediakan terjemahan bahasa asing secara lengkap.

Below is Figure 4.1 on the sub-criteria that often appear on court websites and received a top-score of 2 points from the assessment. The sub-criteria **address** is the best performer as 540 courts provided a complete address. Meanwhile, sub-criteria **foreign language** is the smallest that only 5 court websites provide foreign language translation in satisfactory manner.

**Gambar 4.1. Sub Kriteria Informasi yang Sering Muncul dan Memperoleh Skor 2**

***Figure 4.1. Frequent Information Sub-criteria with Score 2***



## A. Informasi Pengadilan

Informasi pengadilan menjadi jenis informasi yang paling banyak muncul dan memperoleh skor 2 alias lengkap. Dari jenis informasi pengadilan yang meliputi profil pengadilan, profil hakim, profil panitera, struktur organisasi, dan alamat, alamat kantor menjadi jenis informasi terbanyak yang memperoleh skor 2. Terdapat 540 (66,91%) pengadilan yang telah menampilkan alamat pengadilannya secara lengkap yang meliputi alamat kantor, nomor telepon, nomor faks, dan juga email. Akan tetapi, masih banyak juga pengadilan yang tidak menampilkan alamatnya sama sekali (225 pengadilan). Padahal keberadaan alamat ini penting ditampilkan. Alamat menunjukkan lokasi kantor pengadilan. Ketiadaan alamat tentunya akan menyulitkan para pencari keadilan ke mana mereka harus mengupayakan keadilan secara formal.

Mengenai profil hakim dan profil panitera, angka yang tertera di atas juga cukup mengejutkan. Ternyata baru 381 (47,12%) dan 375 (46,47%) pengadilan yang telah menyediakan profil hakim dan panitera secara lengkap. Secara umum, pengadilan yang memperoleh skor 2 ini telah menyediakan profil lengkap berikut nama, foto, jabatan, tanggal lahir, dan semua hakim/panitera telah termuat secara lengkap. Kemudian, ternyata pula

## A. Court Information

Most court websites carry a menu on “court information” which is comperehenisve and gets a score of 2. From amongst the various items in this menu, such as court profile, judges profile, registrars profile, organizational structure, address, the office address is the beste scoring item. There are 540 (66,91%) court websites which give comprehensive information on the court address, including the phone number, fax number and email address. However, there still are many courts which have no addresses whatsoever (224 courts) even though addresses clearly are extremely important. Addresses locate the court, and the failure to provide an address is a major obstacle to access to justice for society.

Regarding the judges and registrars profiles, the above figures surprised us. Only 381 (47,12%) and 375 (46,47%) court websites provided these profiles comprehensively. In general, courts which receive score 2 provided profiles that included names, photos, ranks, dates of birth, in addition to all names of judges and registrars. There are 309 (35,94%) and 308 (38,29%) courts which receive score 0 on this item. Most court websites

bahwa terdapat 309 (35,94%) dan 308 (38,29%) pengadilan yang memperoleh skor 0 atau nihil atas ketersediaan informasi ini. Sebagian besar pengadilan ini sebenarnya telah menampilkan foto para pegawainya di situsnya masing-masing berupa *slide show*, hanya saja sayangnya tidak ada profil lengkap atas foto yang dipajang tersebut.

show pictures of their employees in other parts of the website such as slide shows, without however giving a comprehensive profile for the photos displayed.

Sementara itu, 409 (50,68%) pengadilan telah menampilkan profil pengadilan mereka secara lengkap. Salah satu kunci utama mengapa mereka memperoleh skor 2 adalah karena adanya informasi tentang peta atau wilayah yurisdiksi dari pengadilan tersebut. Informasi ini sama pentingnya dengan alamat pengadilan mengingat informasi ini bisa menjadi petunjuk mengenai kompetensi relatif pengadilan bagi pencari keadilan ke mana gugatan atau tuntutannya bisa diajukan.

Meanwhile, 409 (50,68%) courts displayed their profile in full detail. One reason why these courts received the top score of 2 points is that these websites also gave information or a map of the area under their jurisdiction. This information is just as important as the court address since it relates to relative jurisdiction of the court which is critical to help litigants determine where their claims should be filed.

## B. **Perkara**

## B. **Cases**

Informasi terkait dengan perkara masih menjadi kekurangan dan kelemahan dari pengadilan. Keberadaan putusan, statistik perkara, jadwal sidang, dan prosedur acara atau prosedur litigasi sangatlah dibutuhkan khususnya bagi para pihak yang akan berperkara atau yang sedang berperkara.

Information on cases remains a weakness and problem for court websites. Information on cases, case statistics, hearing schedules, and litigation procedure are very much needed, particularly by parties involved in litigation.

Masih ada 551 (68,28%) dan 459 (56,88%) pengadilan yang tidak menyediakan

There are 551 (68,28%) and 459 (56,88%) courts which do not provide

putusan perkara dan jadwal sidang atau menyediakan putusan perkara dan jadwal sidang namun sangat minim (di bawah 10 putusan). Begitupun juga, terdapat 484 (59,98%) dan 361 (44,73%) pengadilan yang tidak menyediakan statistik perkara dan prosedur litigasi di *website*-nya masing-masing.

court decisions and hearing schedules or only provide such information in sparse and skeletal format (less than 10 court decisions). There are 484 (59,98%) and 361 (44,73%) courts which do not provide any case statistics and litigation procedures in their websites at all.

Hanya 155 (19,21%) dan 161 (19,95%) pengadilan yang telah menyediakan putusan perkara dan jadwal sidang secara lengkap (memiliki skor 2). Merujuk kepada kriteria penilaian yang diberikan pada bab 2, pemberian skor 2 atas putusan terkait dengan statistik jumlah perkara pengadilan yang bersangkutan. Pengadilan yang memperoleh skor 2 telah menyediakan putusan dengan persentase jumlah antara 71-100% dari jumlah perkara yang diputus pada tahun tertentu. Sementara itu, pemberian skor 2 atas jadwal sidang pada suatu pengadilan merujuk kepada adanya jadwal sidang di masa mendatang dan di masa lalu secara lengkap ketika penilaian dilakukan.

Only 155 (19,21%) and 161 (19,95%) court websites provide court decisions and hearing schedules comprehensively (obtaining the top score 2). Referring to the assessment criteria discussed in Chapter 2, whether a website gets a full score of 2 points on this item of court decisions is a statistical matter. A full score of 2 points is given if the website carries 71-100% of the cases decided in certain years. Also, on the hearing schedules a full score of 2 points is given if the court lists hearing schedule past, present and future in a comprehensive manner at the time of the assessment.

## C. Pengawasan

Informasi pengawasan (statistik pengaduan, prosedur pengaduan, dan sanksi disiplin) menjadi informasi yang minim sekali ditampilkan oleh pengadilan. Tercatat hanya 52 (6,44%) dan 43 (5,33%) pengadilan yang menyediakan informasi

## C. Supervision

Information on supervision (complaints statistics, complaints procedures, disciplinary sanctions) is information most rarely provided by the courts. We found that there are only 52 (6,44%) and 43 (5,33%) court websites which provide

statistik pengaduan dan informasi sanksi disiplin secara lengkap (skor 2). Itu pun sebagian besar berasal dari lembaga peradilan agama baik di tingkat pertama maupun banding.

Sementara itu, sebanyak 134 pengadilan atau 16,6% dari seluruh pengadilan telah menyediakan prosedur pengaduan secara lengkap. Sekali lagi, sebagian besar berasal dari lembaga peradilan agama.

information on complaints statistics and disciplinary sanctions in a comprehensive manner (score 2). These comprehensive websites all belong to religious courts at district or appeal levels.

In total 134 courts or 16,6% of all courts provided information on complaints procedure. Again, most of these courts are religious courts.

## D. **Keuangan**

Sama halnya dengan penyediaan informasi pengawasan, infomasi mengenai anggaran keuangan dan laporan keuangan yang lengkap juga minim. Sebenarnya sudah banyak pengadilan yang menampilkan anggaran keuangan dan laporan keuangan ini (pengadilan menampilkan dengan menu DIPA dan Realisasi DIPA), namun sayangnya masih belum selengkap yang ditentukan. Hanya ada 69 (8,55%) dan 62 (7,68%) pengadilan yang memperoleh skor 2 untuk jenis informasi anggaran keuangan dan laporan keuangan.

Sementara itu, sudah banyak pengadilan yang memuat jenis informasi biaya perkara yaitu sebanyak 331 (41,02%), walaupun jumlah ini masih kalah dengan jumlah pengadilan yang sama sekali tidak

## D. **Financial Aspects**

Much as with supervision, information on the budget and financial reports rarely is comprehensive. Although many court websites give financial reports and budget (showing the DIPA and realization of the DIPA), generally the reports are not as comprehensive as the law requires. Only 69 (8,55%) and 62 (7,68%) courts received a score of 2 points for this item.

The number of court websites which include information on litigation fees is more numerous, i.e. 331 (41,02%). Even so, the number of courts which do not give this information is larger

menampilkan informasi biaya perkara (422 atau 52,29%). Informasi biaya perkara yang lengkap sudah memuat informasi biaya perkara secara detail dan bahkan memuat SK Ketua Pengadilan mengenai biaya perkara tersebut.

(422 or 52,29%). For information on this item to be qualified as complete or comprehensive, it must give detailed information on litigation fees and also include the SK of the Court Chairman on litigation fees.

### E. **Lain-lain**

Informasi lain-lain di sini adalah ketersediaan menu informasi bahasa asing. Kriteria informasi bahasa asing tidak disyaratkan, khususnya oleh SK 144/2007. Namun, informasi ini tetap dianggap penting mengingat sebagian pengadilan menggunakan aplikasi *website visitor* di dalam *website*-nya. Dari aplikasi tersebut bisa diketahui darimana saja pengunjung sebuah *website* di mana ternyata tidak hanya dari Indonesia, namun juga dari negara lain. Oleh karenanya, keberadaan menu informasi bahasa asing tidak bisa dikesampingkan.

Sayangnya, baru 79 pengadilan yang telah menyediakan informasi pengadilan dengan menggunakan bahasa asing. Dari 79 pengadilan tersebut, hanya 5 pengadilan yang telah menyediakan informasi dalam bahasa asing sesuai dengan tata aturan gramatika bahasa yang bersangkutan. Sisanya sebagian besar menggunakan mesin penterjemah untuk menerjemahkan informasi pengadilan ke dalam bahasa asing.

### E. **Miscellaneous**

Other information referred to here notably refers to foreign language information. This criteria is not regulated, including by SK 144/2007. However, such information is still considered important as most courts have a website visitor application in their websites. This application allows the court to identify website visitors. It showed that many website visitors are not only from Indonesia, but also from foreign countries. Therefore, the availability of foreign language information cannot be trivialized.

Unfortunately, only 79 courts which have provided court information in a foreign language. Out of 79 courts, only 5 courts have provided information in a foreign language with proper grammar and language use. The other used a translating program.

## Bab 5

## Hasil Penilaian Konten Informasi *Website*

Bab ini membahas mengenai hasil penilaian konten informasi yang terdapat di seluruh situs pengadilan. Di dalam bab ini juga ditampilkan 5 pengadilan terbaik dari masing-masing jenis lembaga peradilan dari sisi ketersediaan informasi publik. Adanya penilaian ini, sekali lagi, tidak menunjukkan kinerja sebuah pengadilan secara menyeluruh, namun hanya menunjukkan kinerja transparansi pengadilan dari satu aspek saja, yaitu penyediaan informasi melalui *website*.

Melalui hasil penilaian ini, diharapkan dapat memberikan dorongan dan motivasi bagi seluruh pengadilan untuk "berlomba-lomba" menyempurnakan penyediaan informasi publik melalui *website.* Disamping itu, adanya penilaian ini juga diharapkan menjadi salah satu upaya dan batu loncatan dalam melakukan penilaian demi memajukan kinerja pengadilan secara menyeluruh.

## Chapter 5

## Assessment of Website Information Content

This chapter will look at the the outcomes of the assessment of the court websites. This chapter will also identify the 5 best courts based on types of the courts and content. It is important to restate here that this assessment does not give a complete picture of court performance but only considers the issue of transparency, i.e. public access to information.

It is hoped that this assessment will bring courts to further improve public access to information through their websites. In addition, it is also our hope that this assessment can serve as a stepping stone in assessing court performance more completely in the future and enhance court performance generally.

## A. Peradilan Umum

### 1. Pengadilan Tinggi: Banjarmasin menjadi yang terbaik

Untuk pengadilan tinggi, Pengadilan Tinggi Banjarmasin menjadi pengadilan tinggi dengan skor tertinggi yaitu 29. Peringkat berikutnya adalah Pengadilan Tinggi Yogyakarta (25), Pengadilan Tinggi Medan (20), Pengadilan Tinggi Manado (19), dan Pengadilan Tinggi Palembang (16).

Harus diakui bahwa Pengadilan Tinggi Banjarmasin memiliki fitur informasi yang lengkap dan *up-to-date* walaupun belum mampu mencapai nilai sempurna dari persyaratan kriteria penilaian. Hampir semua jenis informasi memiliki skor 2 kecuali jenis informasi jadwal sidang (0) dan bahasa asing (1). Ada satu kelebihan pengadilan ini yang tidak dimiliki pengadilan lain yaitu informasi kegiatan setiap hakim dalam jumlah penanganan perkara setiap bulannya. Informasi ini sangat penting khususnya dalam rangka melihat kinerja setiap hakim secara individu.

## A. General Courts

### 1. Appeal Courts: Banjarmasin is the best

At Appeal Courts level, the Banjarmasin Appeal Court is the best appeal court with the highest score, i.e. 29 points. The next court is the Yogyakarta Appeal Court (25), followed by the Medan Appeal Court (20), the Manado Appeal Court (19) and the Palembang Appeal Court (16).

The Banjarmasin Appeal Court has the most up-to-date and comprehensive information featured in its website. Although the court did not get a perfect score based on the assessment criteria, the court receives score 2 for almost all types of information, except for information on hearing schedule (0) and foreign language (1). There is one extra strength which this court has compared to other courts, i.e. information on the performance of each judge in terms of the number of cases handled per month. This information is particularly important for assessing individual performance of the relevant judge.

**Tabel 5.1. Pengadilan Tinggi dengan Skor Tertinggi**

***Table 5.1. The Top-scoring Appeal Courts***

| No. | Pengadilan Tinggi *Appeal Court* | Provinsi *Province* | Website | Total |
|---|---|---|---|---|
| 1 | Banjarmasin | Kalimantan Selatan *South Kalimantan* | www.pt-banjarmasin.go.id | **29** |
| 2 | Yogyakarta | D.I. Yogyakarta | www.pt-yogyakarta.go.id | **25** |
| 3 | Medan | Sumatera Utara *North Sumatera* | www.pt-medan.go.id | **20** |
| 4 | Manado | Sulawesi Utara *North Sulawesi* | www.pt-manado.net | **19** |
| 5 | Palembang | Sumatera Selatan *South Sumatera* | www.pt-palembang.info | **16** |

2. Pengadilan Negeri: Kejutan dari Sumedang

Untuk pengadilan negeri, Pengadilan Negeri Sumedang menjadi pengadilan negeri dengan skor tertinggi yaitu 25. Peringkat berikutnya disusul oleh Pengadilan Negeri Bandung (24), Pengadilan Negeri Rangkasbitung (24), Pengadilan Negeri Pandeglang (23), dan Pengadilan Negeri Yogyakarta (22).

Munculnya Pengadilan Negeri Sumedang merupakan sebuah kejutan, di mana pada *website assessment* yang dilakukan oleh NLRP dan diterbitkan dalam QFS edisi ke-2 Februari 2010, Pengadilan Negeri Sumedang berperingkat ke-8. Sementara

2. District Courts: A Surprise from Sumedang

At district level, the Sumedang District Court is the best court of the land having the highest score, of 25 points. The next position is held by the Bandung District Court (24), the Rangkasbitung District Court (24), the Pandeglang District Court (23) and the Yogyakarta District Court (22).

It is interesting to note that the Sumedang District Court became first, as the website assessment conducted by the NLRP in February 2010 (published in the QFS 2nd edition) shows the Sumedang District Court still in 8th position. Further,

Pengadilan Negeri Bandung dan Rangkasbitung memiliki nilai yang sama (24). Namun, merujuk kepada kriteria penilaian yang disampaikan pada bab 2 buku ini, Pengadilan Negeri Bandunglah yang menjadi peringkat ke-2.

the Bandung District Court and the Rangkasbitung have the same score (24), but the Bandung District Court came in second place in accordance with assessment criteria we set out in Chapter 2 .

**Tabel 5.2. Pengadilan Negeri dengan Skor Tertinggi**

***Table 5.2. The Top-scoring District Courts***

| No. | Pengadilan Negeri *District Court* | Pengadilan Tinggi *Appeal Court* | Provinsi *Province* | Website | Total |
|---|---|---|---|---|---|
| 1 | Sumedang | Bandung | Jawa Barat *West Java* | www.pn-sumedang.go.id | **25** |
| 2 | Bandung | Bandung | Jawa Barat *West Java* | www.pn-bandung.go.id | **24** |
| 3 | Rangkasbitung | Banten | Banten | www.pn-rangkasbitung.go.id | **24** |
| 4 | Pandeglang | Banten | Banten | www.pn-pandeglang.go.id | **23** |
| 5 | Yogyakarta | Yogyakarta | D.I. Yogyakarta | www.pn-yogyakota.go.id | **22** |

## B. Peradilan Agama

### 1. Pengadilan Tinggi Agama/Mahkamah Syar'iyah Provinsi: Pengadilan Tinggi Agama Yogyakarta adalah yang terbaik

Untuk pengadilan tinggi agama, Pengadilan Tinggi Agama Yogyakarta mendapatkan skor tertinggi yaitu 30. Peringkat berikutnya adalah Pengadilan Tinggi Agama Surabaya (29), Pengadilan Tinggi Agama Ambon (26), Pengadilan

## B. Religious Courts

### 1. Religious Appeal Courts/Provincial Syar'iyah Courts: the Yogyakarta Religious Appeal Court is the best

At religious appeal court level, the Yogyakarta Religious Appeal Court receives the highest score, i.e. 30. The second position is held by the Surabaya Religious Appeal Court (29), the Ambon Religious Appeal Court (26), the Banjarmasin

Tinggi Agama Banjarmasin (26), dan Pengadilan Tinggi Agama Kendari (20).

Religious Appeal Court (26) and the Kendari Religious Appeal Court (20).

Munculnya Pengadilan Tinggi Yogyakarta juga merupakan kejutan, di mana pada *website assessment* yang dilakukan NLRP sebelumnya dan diterbitkan dalam QFS edisi ke-4 Desember 2010, Pengadilan Tinggi Agama Yogyakarta berperingkat ke-4. Pengadilan Tinggi Agama Surabaya saat itu menjadi yang terbaik dengan nilai sempurna. Namun, melalui peningkatan standar penilaian *website* saat ini, Pengadilan Tinggi Agama Surabaya posisinya tergeser oleh Pengadilan Tinggi Agama Yogyakarta.

Much as above, it is interesting to note that the Yogyakarta Religious Appeal Court the website assessment conducted by the NLRP in December 2010 (published in QFS 4th edition) showed the Yogyakarta Religious Appeal Court still in 4th position. It was the Surabaya Religious Appeal Court which received the top spot in the QFS. A refinement of our assessment criteria in this study caused the Yogyakarta Religious Appeal Court to overtake the Surabaya Religious Appeal Court.

Salah satu kelebihan dari Pengadilan Tinggi Agama Yogyakarta adalah mengenai bahasa Inggris atau asing. Pengadilan ini berhasil memenuhi tata aturan gramatika dalam melakukan penerjemahan, yang dilakukan oleh SDM yang khusus berperan untuk itu.[11]

One of the strengths of the Yogyakarta Religious Appeal Court is the use of English. This court has a good foreign language component to its website. This court used specially trained experts to develop and manage this element.[11]

11 *Survei NLRP: Website PTA Yogyakarta Raih Peringkat 3*, http://pta-yogyakarta.go.id/index.php?option=com_content&task=view&id=637&Itemid=1, diakses tanggal 2 Februari 2011.

11 *Survei NLRP: Website PTA Yogyakarta Raih Peringkat 3*, http://pta-yogyakarta.go.id/index.php?option=com_content&task=view&id=637&Itemid=1, accessed on 2 February 2011

2. Pengadilan Agama/Mahkamah Syar'iyah: Pengadilan Agama terbaik didominasi Yogyakarta

Ternyata tidak hanya Pengadilan Tinggi Agama Yogyakarta yang menjadi terbaik di lingkungan peradian agama. Namun pengadilan agama di bawahnya juga ikut menjadi yang terbaik dan bahkan mendominasi lima besar pengadilan agama berdasarkan skor informasi. Adalah Pengadilan Negeri Bantul yang menjadi nomor satu dengan jumlah skor total 31 atau mendekati sempurna. Kemudian disusul oleh Pengadilan Agama Yogyakarta (30), Pengadilan Agama Sleman (30), Pengadilan Agama Cianjur (29), dan Pengadilan Agama

2. Religious Courts/ Syar'iyah Courts: the Religious Courts are dominated by Yogyakarta

Not only the Yogyakarta Religious Appeal Court became the best court in its category, but also the courts under the Yogyakarta Religious Appeal Court jurisdiction. As a matter of fact, the courts under its jurisdiction dominates the five top-scoring courts within the religious court group. The Bantul Religious Court comes first with a total score of 31, which is almost perfect. The next ranking court is the Yogyakarta Religious Court (30), the Sleman Religious Court (30), the Cianjur Religious Court (29) and the Wates Religious Court (29). Four out of

Wates (29). Empat dari lima pengadilan terbaik diwakili oleh pengadilan agama di Provinsi Yogyakarta.

five top scoring court in this category are represented by the religious courts in Yogyakarta.

## C. Peradilan Militer

Dibandingkan lembaga peradilan lainnya, peradilan militer memiliki struktur tingkatan peradilan yang berbeda. Peradilan tingkat banding ditangani oleh Pengadilan Militer Utama dan Pengadilan Militer Tinggi. Sedangkan, peradilan tingkat pertama ditangani oleh Pengadilan Militer dan juga Pengadilan Militer Tinggi. Adanya perbedaan tingkatan ini juga mempengaruhi kategori pengadilan dalam penilaian situs ini. Kami akhirnya memasukkan Pengadilan Militer Utama dan Pengadilan Militer Tinggi sebagai satu kategori yang sama. Hal ini dikarenakan keduanya menangani

## C. Military Courts

Compared to other jurisdictions, the military courts has a distinctive judiciary structure. The appeal court level is held by both the Military Supreme Court and Military Appeal Court. The district court level is held by both the Military Court and Military Appeal Court. This necessarily affected the assessment, in which we ended up grouping the Military Supreme Court and Military Appeal Court into one category because in fact they both handle appeal cases, just like the appeals court of general jurisdiction or the religious appeal courts. The military court is then categorized as a district court.

perkara banding sebagaimana yang pengadilan tinggi dan pengadilan tinggi agama tangani. Sedangkan, pengadilan militer tetap dikategorikan sebagai pengadilan tingkat pertama.

1. Pengadilan Militer Utama & Pengadilan Militer Tinggi: Pengadilan Militer Utama Adalah yang Terbaik

Untuk pengadilan militer tingkat banding, Pengadilan Militer Utama menempati peringkat terbaik dengan skor 18. Diikuti oleh Pengadilan Militer Tinggi Jakarta yang memiliki skor yang sama (18), Pengadilan Militer Tinggi Medan (17), dan Pengadilan Militer Tinggi Surabaya (15).

1. Military Supreme Court & Military Appeal Court: The Military Supreme Court is the best

In appeal level, the Military Supreme Court places the first rank with score 18. It is followed by the Jakarta Military Appeal Court, which has the same score (18), the Medan Military Appeal Court (17), the Surabaya Military Appeal Court (15).

**Tabel 5.5. Pengadilan Militer Tingkat Banding dengan Skor Tertinggi**

## E. *The Best of the Best*

Untuk menentukan siapa pengadilan terbaik dari yang terbaik, kami tetap menentukan berdasarkan skor informasi dan tidak hendak melebar pada kriteria lain. Kami melihat berdasarkan nilai skor informasi tertinggi dengan mengesampingkan kategori tingkatan peradilan, entah itu peradilan tingkat banding ataupun peradilan tingkat pertama, serta kategori lingkungan peradilan, baik lingkungan peradilan umum, agama, tata usaha negara, maupun militer.

Berdasarkan penilaian itulah, Pengadilan terbaik dari yang terbaik adalah Pengadilan Agama Bantul, Yogyakarta. Diikuti kemudian oleh Pengadilan Agama Yogyakarta (30), Pengadilan Agama Sleman (30), Pengadilan Tinggi Agama Yogyakarta (30), dan Pengadilan Tinggi Agama Surabaya (29). Jika dilihat, ternyata lima pengadilan terbaik dari yang terbaik didominasi oleh peradilan tingkat pertama dalam lingkungan peradilan agama. Sementara, empat dari lima pengadilan terbaik tersebut, diduduki oleh pengadilan agama di Provinsi Yogyakarta.

## E. *The Best of the Best*

In determining the best of the best courts, we only looked at the scores. No other criteria were considered. We only considered the score board, and did not consider the court level (district, appeal etc) or the jurisdiction (general courts, religious courts, state administrative courts or military courts).

The 2010 Website Assessment finds that for 2010 the court which gives best access to information, in full compliance with Indonesian laws and regulations is the Bantul Religious Court, Yogyakarta (31 points). The next courts are the Yogyakarta Religious Court (30), the Sleman Religious Court (30), the Cianjur Religious court (29) and the Wates Religious Court (29). The best court websites are dominated by district court level in the religious court jurisdiction. Meanwhile, four out of five best courts belong to religious court in the Yogyakarta Province.

**Tabel 5.9. Lima Pengadilan Terbaik dari yang Terbaik**
***Table 5.9. The Five Best of the Best Courts***

| No. | Jenis<br>*Types* | Pengadilan<br>*Courts* | Provinsi<br>*Province* | Website | Total |
|---|---|---|---|---|---|
| 1 | PA | Bantul | D.I. Yogyakarta | www.pa-bantul.net | **31** |
| 2 | PA | Yogyakarta | D.I. Yogyakarta | www.pa-yogyakarta.net | **30** |
| 3 | PA | Sleman | D.I. Yogyakarta | www.pa-slemankab.go.id | **30** |
| 4 | PTA | Yogyakarta | D.I. Yogyakarta | www.pta-yogyakarta.go.id | **30** |
| 5 | PTA | Surabaya | Jawa Timur<br>East Java | www.pta-surabaya.go.id | **29** |

Catatan *(Notes)*:
PA = Pengadilan Agama (*Religious Court*)
PTA = Pengadilan Tinggi Agama (*Religious Appeal Court*)

Kelima pengadilan di atas dapat dianggap sebagai representasi dan juga teladan bagi seluruh pengadilan, di berbagai tingkatan maupun lingkungan peradilan, mengenai tatacara penyediaan informasi melalui *website*. Sebagaimana telah disebutkan sebelumnya, diharapkan dengan pemeringkatan ini terdapat dorongan dan motivasi bagi seluruh pengadilan untuk memperbaiki layanan penyajian informasi publik, khususnya melalui sarana media *website*. Sarana ini dianggap paling efisien dalam melayani kebutuhan publik akan informasi tentang peradilan.

The top five courts are the role model for all courts, at all levels and all types of courts, in terms of complicance with Indonesian law and regulations on public access to information through their website. As we have mentioned previously, it is our hope that this ranking can motivate and encourage all courts to improve their performance on this score, in particular through their websites since website are the most efficient tool in serving public access to information including for the courts.

## F. Yang Terburuk: Semoga Menjadi Yang Terbaik di Masa Mendatang

Disamping menampilkan yang terbaik dan juga *the best of the best*, kami juga menampilkan pengadilan dengan *website* terburuk. Terburuk yang dimaksud di sini adalah terburuk dari aspek skor informasi. Merujuk kepada Tabel 3.1, terdapat 161 *website* pengadilan yang memiliki nilai nol. Nilai nol disini disebabkan karena 3 (tiga) hal, yaitu:

1. *Website* tidak mengandung informasi sama sekali walaupun memiliki domain dan dapat diakses *(No information-NI)*;
2. *Website* tidak bisa diakses sama sekali (*Non Accessible-NA). Website* seperti ini bukan berarti tidak mengandung informasi. Ada kemungkinan biaya *domain server* belum terbayar atau informasi yang dimuat di *website* melebihi kapasitas *website.* Namun, *website* jenis ini ketika diakses selalu gagal.
3. Pengadilan tidak punya *website* sama sekali *(No website)*. Pengadilan sama sekali tidak atau belum memiliki *website*.

## F. The Worst: Hopefully to Become the Best in the Future

Besides showing the best and the best-of-the-best, this study should also show the courts at the very end of the table as regards information score. Referring to table 3.1, there are 161 court websites with 0 score. The score 0 can be caused by 3 (three) factors, namely:

1. The website has no information although it has a domain and can be accessed (No Information-NI);
2. The website is not accessible (Non Accessible-NA). This type of website does not necessarily mean that it contains no information. There is a chance that the server fee must still be paid or the information uploaded is too big, and so the website is over-capacity. However, the important point is that this website cannot be accessed.
3. The court has no website whatsoever (No website). This is self-evident.

Dari ketiga sebab di atas, sebab nomor 1 menjadi kriteria untuk menentukan siapakah pengadilan yang terburuk dalam memberikan informasi publik melalui *website*. Pengadilan telah menyediakan tampilan *website* yang bisa diakses, namun sayangnya belum ada informasi yang dimuat di dalam *website* tersebut.

Out of the abovementioned 3 factors, we focused on the first to determine the worst website in terms of public access to information. The court has provided a website page that can be accessed but carries no information.

Kami telah menginventarisir *website* pengadilan yang memiliki nilai nol dalam penyediaan informasi (NI). Terdapat 25 pengadilan yang berkategori NI, dimana 20 diantaranya adalah pengadilan negeri, 3 pengadilan agama, dan 2 pengadilan tinggi. Untuk lebih lengkapnya lihat tabel berikut ini:

An inventory of the the number of court websites with a zero score on information dissemination (NI) generates 25 courts of which 20 are district courts, 3 are religious courts, and 2 are appeal courts. For more details, please see the following table:

**Tabel 5.10. Pengadilan dengan *Website* Terburuk**

Catatan *(Notes)*:
PA = Pengadilan Agama (*Religious Court*)
PTA = Pengadilan Tinggi Agama (*Religious Appeal Court*)
PT = Pengadilan Tiggi (*Appeal Court*)

Dari Tabel 5.10 di atas, patut disayangkan bahwa Pengadilan Negeri Jakarta Barat dan Pengadilan Negeri Jakarta Utara masuk dalam kategori terburuk dalam ketersediaan informasi publik. Padahal, jumlah informasi khususnya informasi perkara dan statistik di kedua pengadilan ini diyakini sangat tinggi. Berdasarkan buku Statistik Penegakan Hukum Tahun 2008, jumlah perkara pidana di Pengadilan Negeri Jakarta Barat dan Pengadilan Negeri Jakarta Utara adalah 5.083 dan 2.153 perkara (di luar perkara lalu lintas).[12] Sedangkan jumlah perkara perdata di kedua pengadilan negeri ini adalah 1.186 dan 625 perkara (termasuk

It is unfortunate that the websites of West Jakarta District Court and North Jakarta District Court are categorized into the worst websites. In fact, it is believed that both district courts have many information to be published, especially information on cases and statistics. Referring to the Law Enforcement statistics 2008, the number of criminal cases in District Courts of West Jakarta and North Jakarta District Court are 5,083 and 2,153 cases (excluding traffic cases).[12] While, the number of civil cases in both courts are 1,186 and 625 cases (including civil petitions and civil claims).[13] Based on those figures,

12 Muhammad Faiz Aziz et.al., *Statistik Penegakan Hukum Tahun 2008 (Law Enforcement Statistics 2008),* (Jakarta: Pusat Data Peradilan dan Direktorat Hukum & Hak Asasi Manusia Badan Perencanaan Pembangunan Nasional RI), hal. 82. Angka di atas diolah dan dikalkulasikan dari angka perkara yang tersedia di dalam buku statistik ini.

12 Muhammad Faiz Aziz et.al., *Statistik Penegakan Hukum Tahun 2008 (Law Enforcement Statistics 2008),* (Jakarta: The Judicial Data Centre and Directorate of Law & Human Rights The National Development Planning Agency), p. 82. Those figures are processed and calulcated from this statistics book.

13 *Ibid.*, p. 127. Those figures are processed and calulcated from this statistics book.

perkara permohonan dan gugatan).[13] Dengan melihat jumlah perkara yang besar di kedua pengadilan ini, seharusnya tingkat keterbukaan informasi publik di *website* kedua pengadilan ada pada level yang tinggi.

both District Court of West Jakarta and Distric Court of North Jakarta should have been have high level public information availability.

Bandingkan pula dengan Pengadilan Negeri Tual (Maluku). Pengadilan ini hanya memiliki 141 perkara pidana dan 40 perkara perdata sepanjang tahun 2008.[14] Jumlah ini jelas sangat jauh berbeda dengan kedua pengadilan negeri sebelumnya. Andaikatapun terdapat nilai nol yang diperoleh Pengadilan Negeri Tual, maka hal itu bisa dimaklumi. Hal ini bisa saja disebabkan karena minimnya jumlah perkara dan juga biaya anggaran pengadilan. Namun, tentunya aturan keterbukaan informasi publik tetap saja harus dipatuhi terlepas berapa jumlah perkara yang ditangani oleh pengadilan. Hanya saja, mengingat Jakarta merupakan ibukota Indonesia dan secara informal menjadi *role model* bagi semua pihak termasuk di sektor peradilan, maka seharusnya keterbukaan informasi di *website* pengadilan di Jakarta menjadi *role model* bagi seluruh *website* pengadilan di Indonesia.

Comparing to the District Court of Tual (Maluku), this court has only 141 criminal cases and 40 civil cases in 2008.[14] Those numbers are obviously far smaller than two previous District Courts. The website score obtained by the District Court of Tual are still tolerated. This could be due to small number of cases and also small budget. However, public information disclosure rules must be obeyed by all courts regardless how many cases are handled by respective courts. Since Jakarta is the capital of Indonesia and informally be a role model for all parties, including justice sector, the disclosure of information in all court websites in Jakarta should be the role model for all Indonesian courts.

13 *Ibid.*, hal. 127. Angka di atas diolah dan dikalkulasikan dari angka perkara yang tersedia di dalam buku statistik ini.

14 *Ibid.*, hal. 78. Angka di atas diolah dan dikalkulasikan dari angka perkara yang tersedia di dalam buku statistik ini.

14 *Ibid.*, p. 78 . Those figures are processed and calulcated from this statistics book.

Terlepas dari kategori terburuk yang disandang oleh pengadilan-pengadilan di atas, perlu diperhatikan bahwa pengadilan yang memiliki nilai buruk dari sisi ketersediaan informasi publik melalui *website* tidak mencerminkan kinerja pelayanan informasi sesungguhnya. Penyediaan informasi bisa dilakukan tidak hanya melalui *website,* namun juga melalui cara lain misalnya adanya papan pengumuman di pengadilan, berita peradilan, *newsletter*, dan sebagainya. *Website* hanyalah salah satu cara dalam penyampaian informasi publik.

It is important to be noted that courts that receive bad scores on providing public information through their website do not wholly reflect the performance of such courts. Dissemination of information can be conducted not only through website, but through other means, namely announcement board located in court buildings, judiciary journal, newsletter, etc. Website is only one of the means used to disclose public information.

Bagi pengadilan yang masuk ke dalam kategori ini, tentunya hal ini diharapkan menjadi stimulus untuk menjadi yang terbaik di kemudian hari. Tingkat ketersediaan informasi menentukan kinerja transparansi dari pengadilan yang bersangkutan. Semoga kinerja transparansi pengadilan semakin meningkat di masa mendatang.

For every courts listed in this category, it is hoped that this can be an encouragement to improve in the future. The quality of public access to information as provided under Indonesian law is indicative of the performance of a court generally. It is hoped that the transparency of the court will keep improving in the future.
